

AUTOMOBILE OF MISSING PRIEST FOUND

ABANDONED IN THE BUSINESS DISTRICT NEAR WATER FRONT

Came to St. Louis to Make Purchases for Church Bazar—City of Virden is Wild With Excitement—Methodist Minister Discounts Story of Religious Differences

ST. LOUIS, Mo., March 10.—An abandoned automobile found in the business section of the city near the Mississippi river front, forms the only clue to the mysterious disappearance Monday of the Rev. Father John A. Vranak, 28 years old, pastor of the Sacred Heart Catholic church at Virden. The automobile was found by police Tuesday but was not identified as the one belonging to the missing priest until yesterday. Two letters, addressed to the priest and pertaining to business were found in the front seat of the car.

A special committee is seeking to have all creditors transfer claims as a move to obtain a dismissal of the proceedings it was announced at today's meeting.

ALLEGED SOLDIERS HELD FOR ROBBERY

(By The Associated Press) BLOOMINGTON, Ill., March 10.—Walter M. Strickland, 19 and Harold O. Pitcher, 20, claiming to be soldiers from R-1001 Aviation Field, are held here under \$7,500 bonds charged with robbing and attempting to kill Charles McLean, taxi driver near Soldiers' Orphan Home, at Normal, Friday night. They were taken from a freight train at Saybrook early this morning on information furnished by local police. McLean's blood-soaked wallet, watch and glasses were found in their possession.

PROFESS IGNORANCE OF TROOP CLASH

WEST POINT, March 10.—Headquarters at West Point professed ignorance tonight concerning the reported clash of white and colored troops on March 1 which led to a raid today upon an alleged blind pig hotel at Highland Falls. In the absence of Major H. D. Lewis, who was attending a banquet of West Point alumni at New York his adjutant, Major Wilson, reported that he understood two cadets had been court-martialed for bringing liquor into the post.

REORGANIZATION OF LOGAN SQUARE BANK IS PLANNED

State Bank Examiners Expect it to Re-open Monday

(By The Associated Press) CHICAGO, March 10.—State bank examiners today planned reorganization of the Logan Square Trust & Savings Bank to permit it to re-open Monday after being closed today following the finding yesterday of the body of Fred W. Popp, president of the institution, in his automobile on the outskirts of Chicago with a bullet thru his head. A coroner's jury continued the inquest into Popp's death when the police said they needed more time to investigate and hinted that the death may have been due to murder instead of suicide.

Ward B. Whitlock, assistant state bank examiner at Springfield, said a plan was under way for reorganization of the bank to permit it to re-open Monday without loss to depositors and creditors. Subscriptions by other banks of sufficient funds by buying stock to meet any deficit was understood to be the plan considered.

Reports of shortage in the bank's funds were current as bank examiners proceeded to an examination of the books, some reports to the effect that the shortage would aggregate \$750,000, but the examiners issued no statements.

Popp, who headed an institution with deposits of \$2,431,871 quit a job as mail carrier 20 years ago and started to work in the Logan Square district, becoming affiliated with the bank a few years later.

Paul Popp, son of the dead man, and cashier of the bank, could assign no motive for suicide. He explained \$61,000 in cancelled checks in his name found on his father's person by saying that they had been drawn on his personal account on a St. Louis bank.

GRAND JURY HELD NO SESSION YESTERDAY

(By The Associated Press) BASTROP, La., March 10.—The Morehouse Parish grand jury investigating outrages in the Parish by masked bands last summer and fall held no session today having adjourned late Friday until Monday morning.

The jury was organized last Monday and during the four days it was devoted to examination of witnesses it has called more than fifty persons.

The list of witnesses examined indicated that the jury was concerned in its inquiry around the case of Watt Daniel and T. P. Richard of Mer Rouge, who were kidnapped by a masked band on the Bastrop-Mer Rouge highway near Bastrop last August 24. Two bodies were found in Lake Lafourche, 25 miles from here on December 22 and identified as those of the missing men.

AVIATOR KILLED AT PORT AU PRINCE

Port Au Prince, Haiti, March 10.—Sergeant Edward Jospell, a pilot of Dayton, Ohio, and Sergeant August J. Christian, mechanic of Bridgeport, Conn., marine aviator, were killed today when their airplane caught fire and fell from an elevation of 300 feet shortly after they had taken off for a flight. A board of investigation has been formed.

LOOK FOR FEUD OF SMALL-BRUNDAGE TO BREAK THIS WEEK

Predict That it Will Come This Week When Appropriation Measure Comes up for Consideration—Action on Women's Eight Hour Bills Also May be Taken This Week

(By The Associated Press) SPRINGFIELD, Ill., March 10.—Recrudescence of the dissension between Governor Small and Attorney General Brundage caused by consideration the coming week of the Mueller appropriation bill by the house of representatives, is predicted by political observers.

The bill, debate on which flared up Thursday in the house when it was called first reading, gives to the attorney general \$1,037,240 to meet expenses of his office for the next biennium. Several items, including one of \$70,000 for dissolution of defunct corporations, and another of \$50,000 a year for expenses in connection with litigation between the state and the Illinois Central railroad company, have been questioned by Democratic legislators.

Administration leaders in the legislature believe the governor will veto the bill should it pass both houses unchanged. Roll call Thursday on a motion to table an amendment of Representative Roe, Democrat, Vandalia, striking out the \$70,000 appropriation, disclosed that several Republicans sided with Mr. Roe in his attack.

A number of Democrats by their votes upheld the item. The motion, on which the vote was 51 to 51, failed, and Mr. Roe withdrew his amendment stating he would bring the matter up again Tuesday.

The Mueller bill is not an emergency measure and will not require more than a majority of votes for passage. Argument on this bill delayed consideration of the Dailey bill from the senate appropriating \$120,428.73 to Adjutant General Black for the national guard for the period ending June 30, 1923. It was on the calendar Thursday for third reading, but the house passed it up in the hurry to adjourn and it should come up again next week.

Minority Leader Devine of Dixon, in previous debate charged an unnamed representative of the adjutant general with failure to report the necessity for troops at Herdin last June during the rioting. Debate on the question of who should share the responsibility for not sending the troops is expected. With these and other matters the legislature will be busy next week.

The senate probably will pass the bill of Senator Carlson, Moline, giving \$50,000 to Attorney General Brundage for prosecution of the Rock Island vice ring. The measure is due for third reading Tuesday and after passage will go to the house.

The Dailey bill from the house placing value of \$100 on shares of stock of no par value for the purpose of fixing the franchise fee is slated to pass the senate this week. Governor Small's signature is assured.

A committee of which Senator Kesinger, Aurora, probably will be chairman is to meet here next week to survey the transportation problem in the state. The other members are Senators Searey, Barr, Bailey, Menis, Ross, Cuthbertson, Turnbull, Dailey, Essington, Lantz, and Buck.

Action on the coming week on the woman's eight hour bills introduced by Senator Jewell, Lewistown, and Representative Lottie O'Neill, Downer's Grove, is regarded as problematical, following the breaking up of the joint hearing Wednesday night in alterations. With several motions remaining to be heard motions were put that the committee recess until 8 o'clock and that it adjourn until Tuesday night. Confusion ensued and the meeting ended with no date for further sessions. Chairman McCabe of the house committee on industrial affairs has said his committee would have nothing more to do with the bill.

TWO HUNDRED DIE AS STEAMER FOUNDERS

ATHENS, March 10.—A small steamer with 400 persons aboard bound from Salamis for Piraeus ran into a heavy gale and foundered. About 200 lost their lives, the others being saved with difficulty.

MOUNT LASSEN IN ERUPTION FOR TWO AND ONE HALF HOURS

California's Only Active Volcano Creates Some Excitement

(By The Associated Press) SAN FRANCISCO, Cal., March 10.—For two hours and a half today Mount Lassen, California's only active volcano, erupted steam and smoke.

A well authenticated report received by the Great Western Power Company from employees at the company's power plant at Almamor Dam near Caribou, said steam began to pour from Mount Lassen's crater at 11 o'clock this morning. The steam continued for half an hour the report said after which black smoke began to roll out of the crater, rising for 200 feet or more into the air. This continued for about one hour after which steam again poured about 1:30 p. m. and no further eruptions were observed.

The Almamor dam is within a few miles of Mount Lassen and usually the peak is plainly visible. The report said today's eruptions were of shorter duration than many previous eruptions and that the steam and smoke were less dense.

An early report from Red Bluff, California, said a new crater had broken out on the peak of Mount Lassen, but other messages did not bear this out.

Down in Alabama a tax of two
cents a gallon on gasoline has
gone into effect. This of course
means that the price of gasoline
has been increased just that
much, for there is no one to pay
such a bill but the consumer.

The very same thing will hap-
pen in this state if the proposed
tax of 8 cents a ton on coal is
effected.

Men representing "home" type
churches will today go
forth in teams to call upon other
members of the churches and se-

cure their pledges for the benevo-
lence of these churches. The
idea is to have the work all done
in one day so that definite data
will be at hand as to the amount
of money that will be available
during the coming year for the
various works of benevolence.

More and more churches are
applying business methods to
their operations and the budget
system is an example.

Mr. Ford has paid four million
dollars of the debts of the motor
company which he took over.
Payments which could not have
been exacted from him by process
of law. While four million dol-
lars does not mean a great deal
to this exceedingly wealthy man,
such an example of moral integri-
ty in the world of big business
will have its weight. The action
might be termed practical Chris-
tianity.

At a meeting of the chaunatqua
board of directors last night the
resignation of Frank J. Hehl as
secretary was accepted. Mr.
Hehl retires from the position
because of his insistence that he
must be relieved. Through the
years he has been recognized as a
most active worker in the chaun-
atqua organization and much of
the success of the chaunatqua has
been due both to his judgment
with reference to the attractions
and his indefatigable work.

Mr. Armour and his associates
are proceeding with the amalga-
mation of the Armour and Morris
packing interests, notwithstanding
the approval of Secretary
Wallace has been withheld. Evi-
dently the packers have reason
for believing that their action is
entirely within the law and are
willing that the whole matter
should be threshed out thru the
courts at some later time.

Men of big business do not un-
dertake such proceedings until
they are quite certain of their
ground.

With the tremendous activity
that is going on the way of build-
ing, it is not surprising that union
carpenters in Chicago are de-
manding an increase in pay. It is
said that contracts already let
there make certain active demand
for labor for at least two more
years.

It is sincerely to be hoped that
a series of demands for increased
pay will not now disturb Chicago
conditions, for a big struggle in

the ranks of these same workers
is a matter of comparatively re-
cent memory. Strikes and gen-
eral labor disturbances in Chi-
cago have an effect in down state
territory and so the country really
has an interest in the Chicago sit-
uation.

Automotive men in Jack-
sonville have completed all the
details for the annual show which
is to open tomorrow. Monday
evening a booster banquet will
be held, the fourth in the history
of the organization. That word
"booster" is not a misnomer, for
the men of the association have
worked consistently during these
years not only for the advance-
ment of their own business, but
also for the general development
of Jacksonville's interests. In
various ways they have gener-
ously shown this spirit of inter-
est, have co-operated in various
forward movements and are at all
times ready to give of both their
time and funds for the upbuild-
ing of Jacksonville.

While co-operating with other
organizations, the automotive as-
sociation has a place and work
of its own, and is making a dis-
tinctive contribution to the life
and spirit of this city.

KAISER PLAYS SAFE
News dispatches say that the
ex Kaiser shows no desire to re-
turn to the German throne. The
Crown Prince would like to re-
sume the monarchy, but believes
the time is not ripe. He is evi-
dently less cautious than his father,
Wilhelm always had the
habit of playing safe. He was
never caught on the firing line
during the war. He never suf-
fered with the people he plunged
into conflict. He does not care
to risk his neck among those peo-
ple now.

ship.

"For he that is not against us
is for us." Mark 9:40.
Read Mark 9:38-50.
"The redemption of the world
is carried onward by the binding
of Christian hearts and lives to-
gether."

MEDITATION: In Jesus great
heart there is room for those who
follow afar off, but is it not pa-
thetic that there are Christians
who cannot be recognized except
that they do not oppose Christ?

HYMN:
Jesus shall reign where'er the
sun
Does his successive journeys run.
His kingdom stretch from
shore to shore
Till moons shall wax and wane no
more.

PRAYER: O thou Lord and
Father of all mankind, unite the
hearts of thy children of what-
ever race or creed, of whatever
land or clime, in one great fel-
lowship of the Spirit. Let no
unworthy thing separate us from
one another and from thee. O
God, may we have unity of life,
that thy divine kingdom may
come to this troubled world; thru
Christ. Amen.

"OVER!"—way over everything in laughs and thrills and spills
The Comedy Drama Special of the Year!

THOMAS H. INCE
presents
"The Hottentot"
with Douglas MacLean and Madge Bellamy

A riot! One of the GREAT BIG HITS of the year.
That steeplechase! When you're not laughing
you're yelling—yelling like—! And the story!
A panic when a youth who can't even stick on
a rocking-horse has to ride a four-legged thunderbolt
because his girl believes he's a famous steeplechaser.

It'll Have You on Your Feet—Riding all the Way.
The Gasps of an Earthquake! The Yells of a Mirth-
quake! All Rolled Into One!

A comedy, a romance, a melodrama and a horse-
race; mounted in a Tiffany setting with the Ince
punch in every scene! See them jump! The fin-
est blood that ever stepped in horse-shoes! Down
the course, over hill and vale; through water, leap-
ing fences, down mountain sides, hurdling barri-
cades. Horses fall, riders jump to safety—on and
on they ride to a thunder of cheers and applause!
What a race! And when you see it, this classic
steeplechase with its thrills, its spills, its breath-
taking, nerve tingling, pulse-quickening panorama
of daring horsemanship, you will stand on your feet
and shout with enthusiasm. You'll simply forget
you are in a theater. And the rest of the time you'll
be laughing your heads off at the adventures and
misfortunes of the young sea-going chap who had
to ride the wildest horse in seven states just because
a girl wanted a loving cup and he wanted to
give her a wedding ring.

PLANS COMPLETE FOR 4TH ANNUAL BANQUET

Auto Dealers to Entertain 125 Members and Guests at Dinner Monday Evening—Preparations for Big Show Going Good—All Space Taken

Plans for the fourth annual banquet for the members and invited guests of the Automotive Dealers' Association are about completed. The banquet will be held at the Dunlap Hotel Monday evening in the large dining room. Warfield Brown's orchestra will furnish music during the supper hour and Miss Beulah Tull will sing.

At the close of the supper, C. M. Strawn, president of the Automotive Dealers' Association, will introduce Hon. E. E. Crabtree, toastmaster of the evening. When the banquet program is concluded, L. P. O'Donnell, chairman of the reception committee, will take the guests of honor to the Auto Inn, where Col. Frank O. Sheets and Senator Earl B. Searcy will deliver addresses on good roads. Hon. Andrew Russell will also be a guest of honor, and it is probable that Col. Miller and Governor Len Small will also be present.

About one hundred and twenty-five persons are expected at the banquet. There is no charge for tickets, but the banquet is given by the dealers association for its members and their friends, and also exhibitors at the auto show. Preparations for the auto show, which will open tomorrow evening, are proceeding in good shape. All day Saturday applications for space were being refused, as every available space in the Auto Inn is taken. The exhibits of cars promise to be better this year than ever before. Many of the more expensive makes are to be shown for the first time, and a number of high priced cars of the more familiar types will be on exhibition. The show promises clean and interesting entertainment for the public as a fitting break in the long

FORMER RESIDENT DIED IN CHICAGO

Word was received here yesterday by relatives of the death of Mrs. Charles M. Reece which occurred at her home in Chicago Friday.

Mrs. Reece was a former resident of this city, having come here with her husband in 1892 and residing here until 1897. Her husband was employed in the barber shop of Turner & Chapman in the shop under the Farrell bank where Graubner & Lair are now located.

In 1879 the family removed to Springfield, Mr. Reece having received an appointment under Governor John R. Tanner. Later they went to Chicago where Mr. Reece was in the assessor's office in that city.

She was a member of Bethel A. M. E. church. Her husband and one daughter survive. Her niece, Mrs. Harvey Brinkman of this city left this (Sunday) morning for Chicago to attend the funeral which will be held Tuesday morning.

Don't forget I. W. C. endowment fund benefit at Rialto theatre Wednesday and Thursday, March 14 and 15.

PROBATE COURT
Inventory in the estate of Andrew J. Ruble was filed. An order was made to omit appraisal and also an order granting authority for the sale of personal property at private sale.

In the estate of I. N. Matthews letters of administration were ordered to issue to Maggie Parlier.

In the estate of Nancy Wingler, letters of administration were ordered to issue to Frank Wingler.

The inventory was filed in the conservatorship of Joseph Raymond.

In the petition for paying of East College avenue, the court authorized appointment of Joshua Vasconcellos as commissioner to spread the assessment.

In the North East street paving proceeding J. W. Walton was named as commissioner to spread the assessment.

To the voters of the Third ward—I hereby announce my candidacy for nomination for Alderman, subject to the Republican voters of the Third Ward on Tuesday, March 13.

HOTEL COMMITTEE PLANS EARLY CAMPAIGN

The hotel committee of the chamber of commerce of which Henry Frisch is the chairman, has held several meetings on recent dates. There have been some delays in pushing the hotel project, but it has been the belief of Mr. Frisch and his associates that time will be gained by having the plans worked out thoroughly rather than by hasty action.

While there are numerous details to be worked out, it is understood that in the course of the next two weeks that a gathering will be held at which the whole project for erection of a modern hotel building in Jacksonville will be outlined.

COMMITTEE

PUT YOUR HEART INTO THE REVIVAL

Tomorrow Night at Grace Church—That Is The First Night.

Prof. Drummond used to say "What the World needs first of all is not more of us Christians, but a better brand of us." Too many of us are "make-believe disciples." We are not dead in earnest. What a marvelous effect upon this community—if half of the professors of Christianity here really got on fire! Baron Nicolay of Russia is right "I would rather have a half dozen soundly converted than six hundred in whose hearts there is no spiritual life, because the six men will be propagating centers of life."

Are you, my friend, a propagating center of Christianity? Some in this town are winners of souls—but how few! Jesus laid his hand upon money-making Peter and said "Come ye after me and I will make you to become fishers of men!" Some of us Christians have not been coming after Him—for we never brought a convert to Him in all our lives! But we can do it with his help. No man ever tried to bring some other life to Christ without coming closer himself. "A better brand of us." Put your heart into the revival and the revival will put its heart into you!

AGED FRANKLIN MAN
COMMITTS SUICIDE

George Criswell Hangs Self From
Rafter Of Barn At His Home
In Franklin--Had Been In Poor
Health For Long Period.

George Criswell, a well known
resident of Franklin, committed
suicide about 5 o'clock Saturday
afternoon at his home in Frank-
lin. The lifeless body of the man
was found hanging from the rafters
of the barn at his residence, at
about 6 o'clock Saturday even-
ing, and his life had apparently
been a long one for some time.

Mr. Criswell, who was about
seventy-four years of age, had
been making his home with his
sister, Mrs. Martha Wood, during
the present winter. Alarmed by
his absence of several hours Sat-
urday afternoon, Mrs. Wood re-
quested her neighbor, Joseph Wil-
lamson, to institute a search for
the missing man. Mr. William-
son and his son, Lloyd William-
son, went to the home of Mr.
Criswell and found his lifeless
body as indicated above.

Coroner C. A. Rose was sum-
moned and empanelled a jury
to inquire into the cause of death.
The inquest was held Saturday
evening, the jurors being G. J.
Dowell, W. C. Hart, C. L. Aus-
tin, E. F. Seymour, Porter Brew-
er and J. B. Wright.

After the hearing the evidence
the jury returned a verdict find-
ing that the deceased came to his
death by hanging himself with a
rope suspended from a rafter of
his barn with suicidal intent. The
witnesses examined were Joseph
Williamson, his son, Lloyd Wil-
lamson, and Dr. F. H. Metcalf,
the latter having been summoned
upon the finding of the body.

Witnesses Testified
Mr. Williamson and his son
told of their visit to the Criswell
home and of finding the lifeless
body suspended from the rafter of
the barn.

Dr. Metcalf testified that the
deceased had been in poor health
for some time and that he had
been under his care. He said
that Mr. Criswell visited his of-
fice Saturday morning and com-
plained of inability to rest at
night. Dr. Metcalf testified that
he was called to the Criswell
home about 6 o'clock Saturday
evening and upon examination
of the body found that life had
been extinct for about an hour.

Mr. Criswell was almost blind
and had been in failing health for
several years, and it is believed
that it was worry over his physi-
cal condition which led to his rash
act.

The deceased was a son of the
late George and Jane Meredith
Criswell and was born in the
Providence neighborhood seventy-
four years ago. He had spent his
entire life in and near Franklin
and was one of the best known
residents of the community. He
was united in marriage to Miss
Emma Tranbarger, who passed
away a few years later. One son,
William Criswell, died at an early
age.

Surviving are one sister
and one brother, Mrs. Mar-
tha Wood of Franklin, and
John M. Criswell of Waverly, now
in Hot Springs, Ark.

The arrangements for the fun-
eral have not been completed,
awaiting word from the brother
in Hot Springs.

The Trinity Guild will
hold a Spring Rug Sale soon
after Easter. Date to be
announced.

HARDING SATURDAY

Follow Program of Recrea-
tion That Has Marked
Trip

(By The Associated Press)

WEST PALM BEACH, March
10.—Declining invitations ten-
dered by leaders of Palm Beach
society, President and Mrs.
Harding on arriving here today
followed the program of recrea-
tion and relaxation that has
marked their Florida vacation
trip thruout.

Mr. Harding accompanied by
his golfing companions, A. D.
Lasker, chairman of the shipping
board, Charles G. Dawes, former
director of the budget bureau and
Edward B. McLean, publisher of
the Washington Post, and host
to the presidential party after re-
sponding to a formal welcome ex-
tended by Mayor Biggers, of West
Palm Beach and an informal wel-
come by the Palm Beach winter
colony members, motored to the
links of the Palm Beach Country
club.

Mrs. Harding also came ashore,
it being the first time she has
left the house boat except for a
few minutes Thursday at Rock
Ledge. She with Mrs. McLean
went to the McLean cottage here
for a rest while the president
played golf.

All of the members of the pre-
sidential party will spend tonight
on the house boat.

The president when he stepped
ashore here today, had abandon-
ed his tweed golfing costume and
wore the true Palm Beach sport
costume of white shoes, flannel
trousers, white shirt, a Norfolk
model coat and a Panama hat.
Mrs. Harding showed plainly
that she had derived much bene-
fit from the vacation cruise. Like
the president she was clothed in
most approved Palm Beach style.
She wore white pumps and white
hose, a pleated white outing skirt,
a white blouse with a black silk
neck and a black and white sport
hat.

FARM BUREAU MEETING
HELD AT MURRAYVILLE

Under the auspices of the farm
bureau a meeting was held in
Carlson's hall in Murrayville Sat-
urday night, with a large audience
present. County Agent Kendall
operated a moving picture ma-
chine a film on farm bureau or-
ganization work being presented.
Then F. M. Higgins of the Illinois
Agricultural association, made an
interesting address in which he
emphasized the thought that since
all other lines of industry and
business are organized, that there
is an absolute need for the orga-
nization of agriculture. Then a
comedy film was shown.

A similar meeting will be held
at Ebenezer church Monday eve-
ning, at the Christian church in
Lynnville Tuesday evening and
at Meredosia next Saturday af-
ternoon.

Enjoy Candy Pull.

The members of the Epworth League Society of Grace M. E. church enjoyed a candy pull Friday evening in the social rooms at the church. There were about twenty-five young people and they spent a gay evening making and pulling the candy. A number of games and stunts also added to the amusement of the evening. Miss Edna Osborne is the chairman of the social committee of the league and was in charge of the affair.

School for Blind Students Visit Old People's Home.

A group of girls from the School for the Blind spent a very enjoyable afternoon at the Old People's Home on Grove street Saturday afternoon. They treated the old folks to a program of vocal and piano solos, readings and group songs, and in turn were delightfully entertained by

the residents of the home, who gave several musical numbers and served delicious refreshments.

A social hour followed and all agreed that a delightful time had been spent, and expressed the wish that a repetition of the good time may come in the near future.

The students from the school were Nellie Baldwin, Ruby Brewer, Rebecca Rubenstein, Marie Whalen, Ethel Levine, Margo Sights, Hazel Jackson, Jessie Wilson, Julia Skzenta, Ethel Chryslal and Anna Vavasichko.

FAMOUS ARTIST HEARD IN ADDRESS

Gerritt A. Beneker Appeared Before Woman's Club and Guests — "Art as a Constructive Force" His Theme.

Gerritt A. Beneker of Provincetown, Mass., an artist of wide fame, made an address at the meeting of the Woman's club Saturday afternoon. Mr. Beneker came to Jacksonville thru arrangements made by the art committee of the club, and the address was one of the most informing to which the members of the club and their guests have ever listened.

The program of the afternoon also included a group of songs by Mrs. Carl E. Robinson with Miss Virginia Spink as accompanist. A brief business session was held, at which time the president of the club, Mrs. A. B. Williamson, presided.

The art committee of the woman's club includes Miss Anne Stevenson, chairman; Miss Edith Jordan, Mrs. C. N. Priest, Mrs. J. T. Welbridge and Mrs. G. B. Andre.

The club members were present in large numbers and there were also numerous guests. At the close of the address refreshments were served by the hostesses of the afternoon, Mrs. J. W. Arnold, Mrs. C. B. Graff, Mrs. Henry C. Goebel, Mrs. Robert Mullenix, Mrs. W. T. Craig, Misses Tillie Goebel and Minnie Green.

"Art as a Constructive Force" was the theme of the speaker, who was indicated, has nationwide renown as an artist. In beginning Mr. Beneker defined art as the employment of means to accomplish some end, and so it really was apparent at once that he was to discuss the subject in a very broad way.

Further he defined art as a skillful adaption of knowledge and power, and also as the ability of receiving and transcribing that which is beautiful in nature and life. With these and other related sentences Mr. Beneker stressed the thought that art is by no means limited to painting and sculpture and other work of like class, as is quite often thought to be the case.

Since so large a percentage of impressions are received thru the eye, the speaker said that the artist must have rank as a teacher, from this thought the speaker went on to discuss the differences between positive and negative thinking, and declared that a study of war time events would give proof that a great many of the disorders of the world are the direct result of negative thinking.

"The average man," said the speaker, "cannot express himself in the way that he most desires and so the artist in sculpture and the poet have reason for happiness because they excel their fellowmen in their ability to express their thought — to give living proof of the art that is within them."

This expression of one's self or of an idea thru art was held up in contrast with the work of one who simply goes thru monotonous mechanical routine work day after day.

"We are trying to do things in a physical way only," the speaker said. "Character should be changed first. The character of an organization depends upon the character of the individual."

"Science has been exploited by capital to develop natural resources for personal gain. That is what leads to war. The world is beginning to reorganize on the basis of the individual life. Until the individual is considered before the organization, there will never be truth and order."

"Art should be applied to the creative spirit in mankind. The relation of art to industry is only physical and mental. The product is designed and then advertised. The creative instinct of the man should have the first share."

"I am trying to show through my art that God is in Man. By positive suggestion, I want to teach the truth that is, instead of suggesting negative action. Man must learn that he is the temple to God, and that God is in him."

WOODSON VOTES IN FAVOR OF BOND ISSUE

Election Held Saturday Shows Voters In Favor of Issuance of Bonds for Erection of New School Building.

An election was held in Woodson Saturday on the proposition of issuing \$15,000 in bonds for the erection of a school building to take the place of the one destroyed by fire some weeks since. The proposition carried by a vote of 63 in favor, with 51 against.

Not a very large vote was cast as road and health conditions were such that voters did not turn out in large numbers. However, there was a great deal of interest in the election and workers both for and against the proposition were active during the day.

It is understood that the directors expect to advertise for bids as soon as the plans and specifications are complete, and it is the intention to carry the building project forward as rapidly as possible. It is the expectation that the new building will be ready for occupancy not later than the opening of the fall term.

It is proposed to erect a three room brick building of modern type and when it is completed Woodson will have a school of which the citizens of the district may well feel proud.

The directors of the Woodson district are Dr. R. R. Jones, L. A. Fitzsimmons and J. T. Self.

Clears the Complexion

Can you imagine anything more embarrassing than to have a complexion that is marred with blotches?

It is not only unpleasant—that isn't the worst feature—it means that the blood is impure and the longer you neglect it the more you suffer from annoyance.

Skin eruptions of any description indicate, in every instance, an impoverishment of the blood supply—it isn't pure and you cannot expect it to supply the proper amount of nourishment to the surrounding tissues.

Get at the root of the trouble—cleanse the blood of impurities—stir up the circulation—tone up the digestive fluids and have your food absorbed in the proper manner.

Nyal's Hot Springs Blood Remedy

Strengthens the blood supply—enriches it, cleanses it of impure waste material and thus supplies a foundation for the building of a permanent health.

You will notice a decided improvement with the first few doses—the appetite will be increased, you will feel the blood coursing through your veins and the skin will take on the glow of health.

FAR REACHING STEP TAKEN BY FOOTBALL RULES COMMITTEE

Simplify Rules So That Gridiron Regulations are Easier of Interpretation—On-side Kick from Scrimmage Abolished—New Rule on Clipping—Penalty Removed

NEW YORK, March 10.—Taking a far-reaching step calculated to simplify gridiron regulations and eliminate misinterpretations of them, the football rules committee at its annual meeting today created an approved rulings committee charged with the task of establishing a basis for precedents in disputed issues arising in the game.

This action was characterized by members as the most important action of the committee which, after a lengthy discussion of rules, made but one fundamental change in the regulations for 1923. The change was the abolishment of the on-side kick from scrimmage formation, a feature which was said to have been little used in recent years and which has been particularly difficult to rule upon when it occurred. The on-side kick from kick-off formation was not affected by the decision, however.

Serving as a virtual board of arbitration, the approved rulings committee will interpret most questions and publish its decisions annually in the form of a supplement to the regular football rules. Its findings, however, will be subject to final approval by the rules committee as a whole. The result of its work it is believed will establish a series of precedents to guide officials and others connected with the conduct of the game.

Most of the rules committee's deliberations today were devoted to clarifying various sections of the rules and making a number of minor changes.

These alterations included:

Imposing the penalty of fifteen yards for clipping either from the spot where the ball was put in play, as the former rule provided

ROCKFORD WINS IN FINALS FROM JOLIET

Game Was Rough and Tumble Affair—Joliet Led at the Half 6 to 4.

JOLIET, Ill., March 10.—Rockford High school defeated Joliet 15 to 10 here tonight in the finals for the inter-sectional basketball title. The game was played before approximately 3,000 people. Joliet, outweighed several pounds per man started the game with a five point lead with the five game men pounding at their heavier opponents at every turn and slipping thru the holes wherever possible. The half ended with Joliet leading 6 to 4 and the crowd cheering madly. At the beginning of the second half Joliet tappers failed to connect effectively and lost their only chance of keeping the two point lead. The game became a rough and tumble affair with Joliet suffering the short end of the free throw decisions. They missed the chances they did have and Rockford refused to let the opportunities slip. They won easily in the final quarter by holding their own on the defensive.

The victory for Rockford means that they will go to Urbana and play for the state high school title with the other inter-sectional winners.

CALL ISSUED FOR I. S. D. BASEBALL TEAM

Coach Burns Announces Thirty Candidates for Places on the Team—Team of 1923 to Be Made Up Mainly of Veterans.

The 1923 baseball team of the Illinois School for the Deaf will be made up mostly of veterans, according to Coach Robey Burns, who has issued a call for candidates for the team to report Monday, March 19.

Thirty men have signed up as candidates for the team this year and will respond to the call of the coach on the above date. Only two positions were made vacant by graduation last year, catcher and right fielder. There is much promising timber and not only does Coach Burns expect these places to be filled satisfactorily, but he expects that some of the recruits will give the vets a run for their jobs.

Of last year's team the following men will report: Massinkoff, ss; George Carlson, pitcher; Mannen, first base; Miller, second base; Rose, third base; Schrader, left field; Dillard, center field.

There are several recruits who show promise and can belt the old pill. Among them are: Belding, Sellers, Crabbe, Klinnen, E. Carlson, Cole and Clark. E. Carlson, the six foot, 180 pound lad, has been catching the slants of his brother in the gym and may draw the catcher's job. Dillard has been elected captain of the 1923 team.

Coach Burns is concerned mainly in pitchers this season. He wants to get some one to relieve George Carlson who had a strenuous season last year. It is his intention to try out several of the new men in an endeavor to develop at least two good relief pitchers.

Everett Mann, acting chief engineer, is putting the baseball diamond into shape for the coming season. Some improvements will be made and it is hoped to have the field in better shape than ever this year.

Manager Dorens has not completed the schedule as yet, tho a number of good teams are expected to appear on the local lot before school closes. Among the teams that will play the I. S. D., are: Springfield High, Greenfield High, Blue Mound High, East St. Louis High, Missouri School for the Deaf, and Western Military Academy.

I. S. D. ATHLETES WILL BE AWARDED LETTERS

Awards Will Be Made at Annual Banquet to Be Held March 23 —George Huff Will Be Main Speaker.

The first annual banquet of Illinois School for the Deaf Athletic Association will be held in the large dining hall of the school on Friday evening, March 23rd.

On this occasion the members will have the co-ed's as their partners at the tables. It is expected that 150 will be in attendance.

George Huff, veteran athletic director of the University of Illinois, and one of the best known college athletic directors in the country, has been secured as the main speaker of the evening. Mr. Huff stands always for clean athletics and his remarks will no doubt carry deep significance to his hearers on this occasion.

Judge Jenkins, director of the Department of Public Welfare of the State, will be a guest at the banquet. Col. O. C. Smith will act as toastmaster, and Mr. Archer, principal, and Miss Grace Hasenstab will act as interpreters. Several short addresses will be made, among them, one by Coach Burns, who will speak on

the "Vision of the Future I. S. D. Athletics."

In order to be eligible for awards the athletic advisory board has decided that all players must show satisfactory record in scholastic work thru the Principal's statement. The chief aim of the board and the management of the school being to keep up those who take part in athletics in their school work.

Football and basketball awards will be made at this banquet. These awards are attractive and will no doubt be highly prized by those who receive them.

NORTHWESTERN WINS SWIM FROM ILLINOIS

CHICAGO, March 10.—Northwestern University's swimming team today defeated the University of Illinois 47 to 21. Northwestern took first in five events and Illinois first in two. Northwestern also won the 150 yard relay.

Ralph Breyer of Northwestern bettered the international collegiate record in the 220 yard swim making the distance in 2 minutes, 23 3-10 seconds. The former record was 2 minutes, 2 4-5 seconds made by Blinks of Chicago in 1922. Breyer also won the 40 yard free style.

Northwestern later defeated Illinois in water basketball 4 to 1.

This was Northwestern's seventh victory of the season and the team has not met defeat. It was their last dual meet of the season.

The championship of the western conference will not be decided until after conference system.

WISCONSIN MAY STILL TIE IOWA

CHICAGO, March 10.—Wisconsin wiggled into a chance tie race with Iowa for the Western conference basketball championship tonight by defeating Chicago 33 to 1. The game was the fastest exhibition of the season on the Maroon floor. The Badgers took a lead early in the game and with spectacular basket throwing and almost impregnable defense held their margin of safety thruout. At the half, Wisconsin led 12 to 8. By defeating Indiana in their meeting Monday, Wisconsin may share leadership honors with Iowa. A defeat for the Badgers at the hands of Indiana however still would leave the first honors with the Hawkeyes.

BANCROFT SIGNS GIANT CONTRACT

SAN ANTONIO, Texas, March 10.—Dave Bancroft, shortstop of the New York Giants and field captain who had been reported as a holdout during the first part of the training season and who arrived Friday night, today affixed his name to a contract, thus completing the infield that helped the Giants cop the 1922 world title.

Bancroft was out for both practices today.

WEISSMULLER TAKES ANOTHER

Pittsburgh, March 10.—Johnny Weissmuller of the Illinois A. C. easily won the 110 yard invitation race at the Pittsburgh Athletic association natatorium here tonight defeating Pat J. Corr, captain of the University of Pittsburgh swimming team.

His time was 0:59.3. Harold Krueger, a club mate of Weissmuller won the fifty yard back stroke race in 31 seconds.

CHIC EVANS PLAYS IN CITY JUNE 3RD

Chic Evans and Eddie Held will play their exhibition match here on Sunday, June 3. The match will close a week of exhibition plays for Evans in Illinois. Efforts will be made to secure a record attendance at the municipal golf course on that date, and a number of golfers from surrounding cities and towns are expected to come here to witness the match.

Chic Evans' rise from caddy to amateur champion is proof that any youth can make his mark in golf. Three years ago the amateur championship of England was won by Willie Hunter, a government clerk. At a recent tournament held in Pittsburgh, a policeman and a railroad fireman took part and played well up in the final matches.

The municipal golf course here offers the young men an opportunity to learn the game. Mr. Keywood, the local professional is particularly anxious to teach the boys how to play and to become proficient at the game.

FORTY HURT AT FOOTBALL GAME

London, March 10.—Forty persons were injured today when part of a 1 foot barrier surrounding the playing field collapsed during the progress of a soccer cup match between Charlton and Bolton, which was won by the latter, 1 to 0.

Princeton, N. J., March 10.—Yale's wrestlers won an easy victory over Princeton tonight 23 to 5, taking five of seven firsts.

COMMITTEE ON GOLF TICKETS APPOINTED

President Farrell of Golf Association Makes Known Members of Group Who Will Boost Sale of Season Tickets—To Meet Tuesday Night

The ticket committee of the Municipal Golf Association for the coming season, was announced yesterday by the president of the association, F. E. Farrell. He has called a meeting of the committee for 7:30 o'clock Tuesday evening in the Chamber of Commerce, at which time arrangements will be made for the sale of season tickets, and other matters given attention.

It is expected to get an early start on the municipal golf course this year, and the committee is urged to start immediately to boost the ticket sale. The personnel of the committee is as follows:

L. F. Randall, chairman; F. Rantz, C. Y. Rowe, J. Wright, W. Berryman, T. W. Beadles, E. Tomlinson, H. King, L. Reid, John Johnson, C. Hamm, A. T. Capps.

President Farrell sent out letters yesterday to the members of the committee, notifying them of their appointment, and urging them to be present at the meeting Tuesday evening.

If this committee is successful in its efforts to sell enough tickets, Jacksonville will be assured of having a professional in charge of the course this season.

There are at present 2,500 organized golf clubs, with \$50,000 members, in the United States,

and there are a large number of municipal and community golf courses which are not included in the above figures.

Jacksonville had a very successful golf season in 1922, and if they are to keep pace with the rapid growth of the game in this country, 1923 will have to be an even more successful season.

Practically every one of the 3,000 or more golf courses in the United States are supervised by a professional golfer. Jacksonville needs a professional to take charge of the local course, and every golfer is urged to call some member of this committee and notify him of the number of tickets he desires to take.

WILLIE HOPPE TO DEFEND HIS TITLE

NEW YORK, March 10.—

Willie Hoppe, who will defend his world's 18.2 balkline billiard championship in a match with Jake Schaeffer next Monday, Tuesday and Wednesday, tonight denied reports that he intended to retire from the game if successful in retaining his crown.

"I have no intention of quitting the game, regardless of the outcome of the contest," he declared.

NEW RECORD FOR DAVIS CUP COMPETITION

New York, March 10.—A new record for Davis cup competition was established today when Belgium's 1923 challenge reached the United States Lawn Tennis association bringing the total number of nations entered to fifteen, one more than the high mark set a year ago.

GETTING READY FOR 1923 BASEBALL SEASON

Manager Smith Announces Schedule of Forty Games—Will Be Played at Home and Abroad—Four Men Signed.

Frank Smith, manager of the Jacksonville Indians, is rapidly completing arrangements for the coming season of the club. As soon as the weather settles work will begin on the grounds.

This will include the moving of the stands and the diamond some distance to the south and the leveling of the ground in the outfield so that the players will have a much better chance to field long hit balls.

Mr. Smith said yesterday that he expected to book about forty games for the coming season. Games will be played abroad this year and fans will have to be satisfied with several black Sundays unless they accompany the team. It is probable that this is what many of them will do when games are played in Winchester and other towns in this community.

Contracts have been mailed to all of the players on last year's team. Four men have signed up. Clark and McGuire signed some days ago and Konloff second baseman and DeFrates third baseman signed the past week. Smith says all of the veterans will be given first call. However, should they not sign up soon, outside players will be signed and given the jobs.

According to present plans the season will open on April 23. The club to open the season has not been selected but it will be a strong one to tip the 1923 baseball lid.

MALLORY AND LENGLEN BOTH IN

NICE, March 10.—Entries for the Nice lawn tennis tournament opening Monday closed today. Among those entered are Suzanne Lenglen, holder of the world's title for women; Mrs. Molla Bjurstedt Mallory, American champion; Miss Kathleen McKane, ranking British woman, and Mrs. Beamish, another British star.

King Gustaf of Sweden, former King Manuel of Portugal and the Duke of Connaught have reserved places and the entire seating capacity is sold out for the week in anticipation of the long deferred meeting between Miss Mallory and Mlle Lenglen.

ABADENE BREAKS RECORD AT TIA JUANA

SAN DIEGO, Cal., March 10.—Abadene the gelding recently claimed by C. B. No preacher can do it all!
No able song-leader like Mr. Lovejoy can do it all!

Every Christian in this city can be a real help in making Christ clear and distinct before this city. These are the weeks that we pull together to make God's Kingdom come in our homes and schools and city. Of course we want a live Christianity 52 weeks in the year. But these are the weeks when we work and pray for a spiritual high-tide. High-tides move stranded lives when nothing else will. When thousands are talking and working for one definite, agreed end, it will create a community atmosphere in a city of this size. Let us have ten congregations giving themselves to the winning hearts to Christ. We can do it if we will. For God always wills that souls come to Him.

"The stork in the heavens knoweth her appointed time." Many a life is just on the edge of the Kingdom. All that some of our young people need is a wise and helpful enthusiasm that will lift them over their indecision. Will you, my friend, be a lifter or a shirker?

MRS. I. C. COLEMAN DIES
AFTER LONG ILLNESS

Death Occurred at Home of Son in Palmyra—Funeral To Be Held Here Monday Afternoon.

The death of Mrs. Isaac C. Coleman, for a great many years resident in Jacksonville, occurred Friday evening at the home of her son, Horace A. Coleman, in Palmyra, following a lingering illness of several years.

The remains are to be brought to Jacksonville Monday and the funeral will be held Monday afternoon at the First Baptist church, in charge of Rev. A. P. Howells, assisted by Dr. T. H. Marsh of Decatur and Rev. E. L. Fletcher of Jacksonville. The remains will lie in state from 1 to 3 o'clock at the church.

Mrs. Coleman's maiden name was Sarah Ann Hawkins and she was born in Providence, Rhode Island December 10, 1837, and at the time of her death was 85 years, 3 months old. She was the ninth child of Stephen Hawkins and Abigail Walden who were of the sturdy pioneer New England type who founded our Republic and her grandfather fought in the American Revolution. Her father Stephen Hawkins was born in 1792 in the days of George Washington and lived to be 93 years old. Her mother Abigail Walden was born in 1800 and lived to be 92 and when 12 years old went with her father, who was captain of a sailing vessel, running between Newport and New York, to see the first steamboat in the Hudson made by Fulton.

Thus Mrs. Coleman's long life was a connecting link between the Colonial days and the present time. She always lived in the future and she loved life, and travel and making friends was her delight and she always welcomed every new movement and invention that helped to make her life worth living. It was her delight to say until her last illness that she was 85 years young. When a girl 17 years old she was converted and was baptised in the Providence river and joined the Central Baptist church.

In 1869 she was united in marriage with Isaac C. Coleman of Waukeget Island, Mass., and together they came west and settled in Jacksonville, Ill., where they established a home and lived until Mr. Coleman passed away in June 1903. Mr. Coleman was an able architect and superintendent and many of the State buildings at Elgin, Anna and Jacksonville were planned and erected under his supervision. Mrs. Coleman is survived by two sons: Horace A. Coleman of Palmyra, Ill., and Frederick C. Coleman of New York City, N. Y., and five grand children of Mr. and Mrs. H. A. Coleman; Miss Harriett C. Coleman, Mr. H. Rutledge Coleman, Miss Martha A. Coleman, Miss Florence V. Coleman and Frederick C. Coleman. The son, Frederick C. Coleman of New York spent recent days with his mother and will not be here for the funeral.

One sister Mrs. A. E. Goltra passed away nine years ago and she leaves but one surviving member of her family, a brother, Stephen Hawkins of Chillicothe, Mo., and his three children. Mrs. Nellie Hawkins, Stephen Hawkins Jr., and Will V. Hawkins. Miss Mabel Goltra, a niece of Jacksonville Ill., and Miss Ella Stewart and B. C. Stewart of Providence, Rhode Island.

Mrs. Coleman remained a faithful member of the Baptist church of Jacksonville and was always active in the cause of missions, having been president of Missionary society for 15 years. She was a member and past president of the East Side Tuesday club and a member of Jacksonville Woman's club. The past eight years she spent most of her time in Florida but always loved her home city and its associations.

The Woman's Missionary society of State Street Church will meet in the church parlors Tuesday at 3.

FOUR MEN TAKEN IN
BOOZE RAID SATURDAY

Sheriff's Forces Find Five Quarts of Mule and Nab Prisoners at House on North West Street—Hearing Set for Monday.

Forces from the county sheriff's office conducted a raid at 5 o'clock Saturday evening against a place on North West street between Lafayette avenue and North street. They were armed with a search and seizure warrant issued by State's Attorney Robinson and were able to confiscate five quarts of mule, which they found in the back room of the building hidden behind the chimney.

Four men who were found in the place were arrested. They were H. C. Wood Van Stice, Herbert Manning and Lee Perkins. The prisoners were taken before Squire Bayha, where they were placed under bond of \$500 each. Wood gave bond and was released, but the others were placed in the county jail.

Sheriff Wright and Deputies Strawn, Burch, Burley Jones and Clyde Jones conducted the raid. They found the door to the place locked, but pried it open and entered. The four men were found in the back room, and a search revealed the five quarts of white mule whiskey. It was evident that the four men found in the place had been drinking.

This is the second time that Van Stice, one of the four arrested, has been taken up in raids on bootlegging establishments. The prisoners will be arraigned Monday before Judge Samuell in the county court.

"BILLY" SUNDAY MAY
BE CHAUTAUQUA STAR

Noted Evangelist is Available For Lecture Here on August 20—Chautauqua Board Elects Officers and Transacts Business Saturday Evening.

Efforts are being made to secure William A. Sunday, the well known evangelist, as a lecturer on the local chautauqua platform here next August. This announcement was made at the annual meeting and banquet of the board of directors of the Jacksonville Chautauqua Association held at Dunlap last night. Word has been received that Mr. Sunday might be available for August 20, and the board is to make further investigation of the matter, with a view to entering into a contract, if possible, to secure satisfactory terms.

At its meeting last evening last evening the board elected officers for the ensuing year as follows:

President—A. C. Rice.
Vice president—J. W. Merrigan.
Secretary—Rev. W. E. Spooner.
Treasurer—W. A. Fay.

The resignation of Frank J. Heintz as a member of the board was accepted with regrets. Mr. Heintz has been the very efficient chairman of the chautauqua program committee for several seasons. H. H. Bancroft was elected a member of the board to fill the vacancy.

The program for the 1923 chautauqua is yet to be constructed. Some of the talent has already been tentatively purchased, and the probable bookings give promise of one of the best programs ever given from a local platform. The board instructed the president to appoint the usual committees in preparation for the season's work.

The financial statement for the year just closed showed an expenditure of \$4,547.28 for talent for the 1922 chautauqua. This board discussed the matter of obtaining a band for the coming chautauqua. It was also stated that Dr. Charles A. Gage who has served as platform manager for the past two years, could not be obtained for the coming season. Thus it will be necessary for the board to find another platform manager, a matter which will be given immediate attention.

The financial report showed a balance in the treasury at the present time of \$2,068.67. Total expenditures for the year were \$9,315.04 and total receipts \$10,097.77.

PRESBYTERIANS TO
CANVASS MEMBERS

The three local Presbyterian churches will engage in an Every Member canvass today, as a part of a country-wide canvass being made by all Presbyterian churches in the nation. A benevolence budget of \$6,577.28 will be raised by the 1,037 Presbyterians living in this city and vicinity.

State street and Northminster churches will also raise their budgets for current expenses. A fund of \$1,500 is to be raised by State Street church for the redecoration of the interior, the work to be done next summer.

BONES OF REVOLUTION HEROES TO BE BURIED IN TUCKAHOE HILLS

Whitened Bones of 195 Unearthed Recently in Old Cross Roads—Tuckahoe Was the Scene of Much Skirmishing Between Rebel and British Forces During the War

(By The Associated Press)

TUCKAHOE, N. Y.—Whitened bones of 195 American heroes of the Revolution, unearthed recently in a sandy trench in the "Y" of the old state cross-roads near here, are to be removed to a memorial plot on the highest knoll in Tuckahoe Hills, to rest under a monument inscribed with the history of their last battle.

One of the 195 already has been taken from the trench and entombed as the "Unknown Soldier of the Revolution" beneath the floor of the Tuckahoe Village Hall. He was placed in the tomb on the 191st anniversary of the birth of his commander-in-chief, George Washington, after exercises similar to those of the "Unknown" of the World War at Arlington Cemetery, were held by the townsfolk.

Village officials have started a fund to purchase the plot of ground in which the 195 patriots, including the "unknown" entombed February 22, will be reburied next Washington's birthday. They plan also to erect a granite shaft over the graves, and it will be unveiled the day of reburial.

This little village of hills and dales which lies some twenty miles from the heart of New York City, was a great skirmishing ground between the rebel and British forces during the revolution. General Washington maintained a temporary headquarters in the old inn at the crossroads. The inn still stands.

Across the road from it, and at the very point of the cross-roads, is a spring. Rising back of the spring is a hill, some 200 feet high, and around the hill winds the road.

Village historians say that a party of American irregulars, returning from a foraging expedition into the hills, stopped at the inn to rest and eat. General Washington had been at the inn only several days before.

A heavy force of British regulars advanced upon it, their movement being protected by several pieces of small artillery on the hill behind the spring. The commander of the American outfit, realizing that he had been caught, walked from the inn carrying a white flag and offered, it is recorded, to surrender.

This offer, the town history says, was refused, whereupon the American shot the British officer dead and was himself killed. The British and being greatly superior in numbers, decisively defeated them, killing 195.

A few of the Americans escaped. Their dead comrades were stripped of most of their clothing and left where they fell. News of the attack reached General Washington and he sent reinforcements.

C. P. & ST. L. STARTS TO DISMANTLE LINE

Management of C. P. Recalls all Switch Lights Along Line in Greene County — Other News from White Hall and Vicinity.

White Hall, March 10.—J. N. McCants, C. & A. operator at Jerseyville, reports that the C. P. & St. L. recalled all switch lights from along that road on Thursday observing the move as a real effort to dismantle the line as soon as possible. This information was volunteered when he made inquiry concerning the proposed C. & A. cut off from White Hall west, which proposition was held up by the receivership, but one important official has stated that it has gone so far that when the resignation comes the change will be carried out. However, the C. & A. will probably double track west from Roodhouse this year as far as the C. B. & Q. crossing. This will have an interesting result, in that if such be the case the proposed short cut west will not necessarily have an important bearing on the future of Roodhouse, the present status of which means much to White Hall.

S. B. Totten, C. & A. second track operator at Carrollton, seriously injured his only hand Thursday night while handling baggage, and is off duty. S. B. Grant is there in relief service.

T. Young, the relief agent of the C. & A. was in town a short time Thursday.

K. W. Vanderpool, operator at the C. & A. station, is "sitting in" almost daily at Roodhouse in order to break in for service as a train dispatcher. Vanderpool has a sister who is the only woman train dispatcher in the country to our knowledge. She is Mrs. R. L. Cooper, now with the Union Pacific at Los Angeles. She was located at Chaffee, Mo., with the Frisco during the major portion of her services in dispatching train, and her husband was chief dispatcher. It is at Chaffee that Milton Stubblefield, who visits White Hall annually, is still located as a train dispatcher.

R. B. Pearce has resigned as chief clerk tomorrow to be in readiness to grab off the postmaster at White Hall when his commission arrives. He has received from Senator McKinley and ex-Congressman Shaw notification that his nomination by President Harding was confirmed by the senate last Saturday.

There is not much doing in local railroad circles. The Burlington had a pile driver working south of town this week, unloading concrete slabs to be used in reinforcing the smaller bridges south of White Hall. The bridge gang has been here for some time. The Burlington began Thursday to run the 2500 class passenger engines over this division regularly. This is the class of passenger engines used on the main line. The smaller engines could not make the time with the heavy trains, especially on the night runs.

ATTRIBUTES SUCCESS TO
NEWSPAPER ADVERTISING

In an interview, Mr. Warren Wright, President of the Calumet Baking Powder Company, and the largest baking powder company in the world, strongly advocated the use of newspaper advertising, and points to Calumet's success as proof of his statement.

"Calumet sales are enormous," stated Mr. Wright, "and we attribute this to our lavish use of newspaper space. We believe that the newspaper is the most direct medium we can use in getting our message across to the housewife and we know from our experience, covering thirty years, that the housewife will respond to newspaper advertising quicker than she will to any other form of advertising."

"The housewives have confidence in newspaper advertisements because they know that the newspapers set up high standards for their advertisers. It is for that reason that the housewife looks to the newspaper for information on products in which she is interested."

FOREIGN PERPETUAL
LEASES IN YOKOHAMA

Yokohama.—The question of perpetual leases held by foreigners in this city is likely to be brought up in the Diet in the form of a proposal that the government should purchase them. Under the decision of the Hague court the holders of these leases are exempt from taxation. As a result the municipality's income is considerably curtailed, so the Government for the last eight years has been contributing 80,000 yen a year partially offset this loss. The area of these leases exclusive of the foreign consulates is 257,000 yen a year to partially offset this loss. AGRICULTURAL WEST

Babson Warns Wheat Growers

MINNEAPOLIS, March 10.—Last week we quoted Roger W. Babson relative to conditions in the "Agricultural West." This week Mr. Babson treats of the Agricultural West.

"The Agricultural West," he says "is confronted with a fundamental law which is this: the consumption per capita of wheat decreases as a people becomes more prosperous. The business man eats less wheat than his chauffeur; the chauffeur eats less than the Italian gardener and the gardener eats less than the immigrant who has just landed. Each generation of a given family eats less wheat than the preceding generation, and so it goes. This law does not apply to cotton, sugar rubber and certain other products. It does not so much apply to corn, which is fed to live stock, because as people become more prosperous they eat more meat, and they consume more cotton, sugar, rubber, etc. This does not mean there is no hope for the wheat growers; but it does mean that the wheat growers have a more difficult problem than the growers of most other products."

"So long as a million new immigrants were coming in to this country every year, and so long as our birth rate remained high, there was an increase in the demand for wheat sufficient to take care of the excess supply. With the immigration practically cut off—the net gain in 1922 was only about 25,000 people—and with the constant decline in our native birth rate, the wheat growers of the Agricultural West are against a very difficult proposition."

"As a result of these conditions I found the small farmers of Minnesota, North and South Dakota, Kansas, Nebraska, Iowa and even those of Missouri still in rather bad shape. It is true that conditions everywhere in the West are much better than two years ago. The banks are liquid and the farmers are paying their debts; but with low prices for their products and high prices for labor and all they buy—with taxes rapidly increasing—the growers of wheat and other cereals have a real problem."

Fundamentally this is, under present immigration and better rate conditions, a problem which must be solved thru exporting cereals. But to increase exports our farmers must compete with the low cost of labor of Europe, the Argentine and other cereal growing countries. This means that our only hope is in mass production. Wheat must be grown as automobiles are made—by the most efficient and intensive methods. In order to compete with the rest of the world in raising wheat, either the net productivity of our soil per acre must be increased 25 per cent or else the labor cost must be cut 25 per cent. If the latter is to be accomplished, without reducing wages, it means that about 20 per cent of the men now engaged in raising wheat should either raise other products or else become carpenters, brick-layers, plasterers and painters—in their own or nearby towns. The future of such cities as Minneapolis, St. Paul, Kansas City, Duluth, Des Moines, Davenport, Sioux City, Omaha, Topeka, Wichita, and even St. Louis depends very largely upon a fearless recognition and solution of this problem. It cannot be solved by the politicians or by handing out gifts to the farmers. It can be solved only by intelligent leadership with the co-operation of the newspapers."

"Of course, no one should assume from these comments the idea that the Agricultural West is dependent upon wheat. The industries of this wonderful section of the United States are becoming more diversified every day. Moreover, these diversified industries are rapidly picking up. The lumber industry of Minnesota, the dairy interests of this section, and the various other lines are improving. Packing, which was flat on its back a year ago, is turning over onto its side preparatory to getting up. All the live stock business looks better and the farmers are confidently looking forward to higher prices. The improvement in the copper industry and the great improvement in the iron and steel industry is helping the northern group of these states. Lead, zinc, and other non-ferrous metals will soon be in better demand as the great building boom develops further. This will help Missouri and certain other portions of that section. The people should be taught that diversification applies not only to the diversified crops which a farmer plants; but to the different lines which his boys enter. Let one or two or them continue in farming but let one go into the building trades, another into small manufacturing, a third into merchandising, and the fourth into the ministry, medicine, banking, or law. This does not mean that such boys should go to the industrial cities of the East, or even to the large cities of the West. Statistics clearly show that the best opportunities today are in the smaller cities and towns. Moreover, most boys are better off to remain in their home town than to go to large cities. One of the great troubles with boys today is that disease known as 'Green Pastures'—"

which a materia medica tells us means that to one afflicted with this disease 'The pasture farthest away always looks the greenest.'"

"Still, notwithstanding these obstacles, I found the great Agricultural West in far better condition than a year ago. Manufacturers and merchants are well justified in looking for increased sales in this section during 1923. The improvement has contributed to the increase in the barometer of business for the entire country. The Babson chart today stands at 3 per cent above normal compared with 18 per cent below normal a year ago. This is a great improvement and is the best before all of us now is to keep business up to its present figures. Satisfactorily, President Harding has succeeded in bringing business back to normal. Whether or not he can hold it here, only the future can tell. Much depends upon the Agricultural West and especially upon its railroads, bankers, merchants, newspapers, and other leaders of public opinion in this section. In the end—as the great Agricultural West goes, so goes the whole country. Hence, the problems of the West are the problems of all of us. As Jesus of Nazareth—the greatest economist who ever lived—taught his hearers: 'The prosperity of each is dependent upon the prosperity of all and we can help ourselves only as we help one another.'"

ARGENTINA STILL COLD TO LEAGUE OF NATIONS

BUENOS AIRES.—The administration of President de Alvear will follow that of President Yrigoyen in respect to keeping Argentina aloof from the league of nations. Argentina withdrew in 1920 because of the refusal of the assembly to consider amendments to the covenant voluntarily incorporating all nations as members.

In a statement published in La Nacion Foreign Minister Gallardo says:

"Our attitude toward the league of nations will undergo no modification whatever for the time being. This government fully concurs with the Argentine thesis expounded at Geneva by the ex-foreign minister, Doctor Honorio Pueyrredon, and it is moreover, ready to uphold it, for it considers that the league, to be a reality, should include all countries and have a democratic organization with no distinction between large and small powers."

"It may well happen yet that the Argentine thesis will be adopted in practice by the incorporation in the pact of the United States, Germany, Mexico, Austria, etc. Then there would be no reason for an attitude of aloofness which would be without explanation, justification, nor any real motive."

MANY SUFFER
FROM MALNUTRITION

Chicago.—Between twenty and thirty three per cent of the school children of the United States are suffering from malnutrition, according to the report of the advisory committee on food and nutrition of the National Child Health Council, soon to be published by the U. S. Public Health Service.

"Malnutrition, as general physical underdevelopment is commonly called, is not confined to any class or race but in some cities is apparently as prevalent in their homes of the well to do as in those of limited means," the report states.

"Faulty food and health habits are frequent causes of malnutrition. They include too little food, the wrong kind of food and bad food habits, due to ignorance, poverty or lack of home discipline. In physical defects found, the most common are obstructions such as adenoids in the nose and throat, and decayed teeth, which breed germs and prevent proper mastication of food. Supplementing the Red Cross saying that nutrition workers are available to communities to give instruction to parents, teachers and children, so that the individual community health may be improved thru the selection and preparation of suitable nourishing food."

ARCHDUKE DEPRIVED OF
VALUABLE PROPERTY

Prague.—To retain possession of valuable property, mines and factories, in Silesia, Frederick, at one time an Archduke of Austria, was ready to renounce his relationship to the house of Hapsburg. He pleaded in the courts of Czechoslovakia to be classed as a commoner, but the judge ruled otherwise and, under the decision that all properties of the Hapsburgs were to be confiscated, he has lost all his holdings without a cent of compensation.

Frederick is an uncle of the late Austrian emperor, Charles. He exerted, in the old days, a measurable influence in the family which dominated central European politics for the last seven centuries.

CHANDLERVILLE MEN IMPLICATED IN THEFT

Men Accused of Theft of Wheat and Clover Seed Held in County Jail at Virginia — Robbed Chandlerville Elevator Co.

Between the dates of December 25 and January 1, the Chandlerville Elevator company was robbed of a great quantity of wheat and clover seed. The sheriff's office of Virginia was notified and their search started at once to see what could be done. About ten days ago Deputy Samuel Greenwood of Chandlerville got a tip on where the wheat and clover was located. He at once got into communication with the president of the Chandlerville Elevator company, Addison McNeal. He came to Chandlerville Sunday evening and drove to the home of John Osborne at Chandlerville and served a search warrant on him. Mr. Osborne bought the wheat and clover seed, not knowing that it had been stolen from the elevator. They found a large quantity of wheat stored in boxes some in barrels and 35 or 40 pounds in sacks, amounting to about one hundred and thirty bushels. They also found 3 1/2 sacks of clover seed and 1 sack of alfalfa. The wheat was removed back to the elevator by Mr. McNeal.

The three men implicated in the plot are Bert Cook, Samuel Cook and James Miller all of Chandlerville. Two of the parties were taken into custody Sunday and the other one captured early Monday morning and were held in the jail at Virginia. On Friday preliminary was held by Judge W. R. Martin, police magistrate. A large quantity of the wheat and clover seed was brought to the court house and identified by the members of the Elevator company as property of the Elevator company. Upon hearing of the evidence the court held the three to the grand jury which convenes at Virginia March 19. They were placed under bond of \$1,000 each being unable to furnish bond they are being held at the county jail in Virginia.

TENANTS AND LANDLORD LOCK HORNS IN ROME

ROME.—An American woman long a resident in Rome recently bought an old palace in the center of the city, and thereby became landlady to a group of Italian families which, with true business acumen, were subleasing rooms for 400 lire a month each while they paid from 120 to 200 lire for entire apartments. The old rent laws prevented landlords from increasing their rentals, but permitted tenants to sublet at whatever they could get.

Wanting the palace for her own use, the buyer, who is wealthy, offered each tenant 10,000 lire to move out. This was scornfully declined. Next she announced a rental increase of 500 lire, her right under the new law.

The tenants thereupon got together and protested the palace was uninhabitable for decent people, submitting at the same time a formidable list of urgently needed repairs. The American owner agreed every repair was essential, and notified the tenant to move out so she could have them made. A referee is now being sought.

Sterling Monday for the funeral services the actual time of which has not yet been announced.

SPORTSMEN ORGANIZE HELP PROTECT GAME AND ALSO THE FARMER

Organization Dedicates its Members to Respect the Rights of Others—Officers of Body Are Well Known Sportsmen—Says That It Has No Axe to Grind in the Matter

(By The Associated Press)

SPRINGFIELD, Ill., March 10.—An organization of sportsmen who have dedicated themselves to respect the rights of others, "especially the owners of the land on which they hunt," and who have "no axe to grind nor even a tiny pocket knife," has been formed here out of respect "for the spirit of the law," and for the protection and propagation of game in Illinois.

Sportsmen in this as well as other states have declared the association's idea and ideals "brand new." It has taken the name of the "Illinois Game Protective Association." Its president and secretary are farmers. R. J. Wilcoxson of Springfield is president; Charles F. Manfield, Jr., Roodhouse, secretary; Judge Truman K. Snell of Carlinville, vice president, and George A. Fish, Springfield, treasurer.

"This is not a political organization," the association's declaration of principles set forth, "nor is it one in which any controlling member has an axe or even a tiny pocket knife to grind. It is not fostered by any commercial organization, nor is it entering into competition with any commercial enterprise. It is not attempting and will not attempt to overthrow or supplant any existing organizations or institutions."

"This organization should include in addition to sportsmen, every farmer and farmer's son who is interested in increasing the game supply, in law enforcement and the protection of his rights. "It is an association of sportsmen organized to promote clean sportsmanship, protection and propagation of game, respect for the rights of landowners and enforcement of game laws. "It is our aim to have every member always a real sportsman—a gentleman who respects the spirit of the law and the rights of others, especially the owner of the land on which he hunts. "When our organization is completed we expect to devote a large amount of time and money towards feeding, providing shelter and otherwise protecting game in Illinois."

"We intend to work for propagation, distribution and importation of suitable game for all sections of the state. "One of our important functions will be assisting in the enforcement of the law thru the appointment of special officers in each county, and the education of the sportsmen themselves, that the law violator is injuring every other sportsman. Our law enforcement must extend also to the protection of the rights of the landowner and farmer. "There is no necessity and we have no desire to attempt to coerce or threaten any public official. We feel that a campaign of education along the lines indicated will remove and all antagonism that may exist between sportsmen and other classes of citizens."

COLLEGE OF MUSIC NOTES

Alta Crum was soloist at a dinner given recently by the students of the Home Economics Department in the High school to the members of the Board of Education. She also gave a violin number at the last meeting of the Chaminade club and was heard last Sunday, at the Christian Endeavor of Central Christian church. Miss Wilma Crum was accompanist on all three occasions.

Fredericka Balch, soprano, and Virginia Clark, pianist and organist, will be heard at a special music service held at the Presbyterian church of Woodson on Sunday.

Elizabeth Hardesty played piano solos at the B. Y. P. W. on Sunday. Gwendolynne Schroyer, soprano, has substituted in the Grace M. E. church double quartette for the past three Sundays.

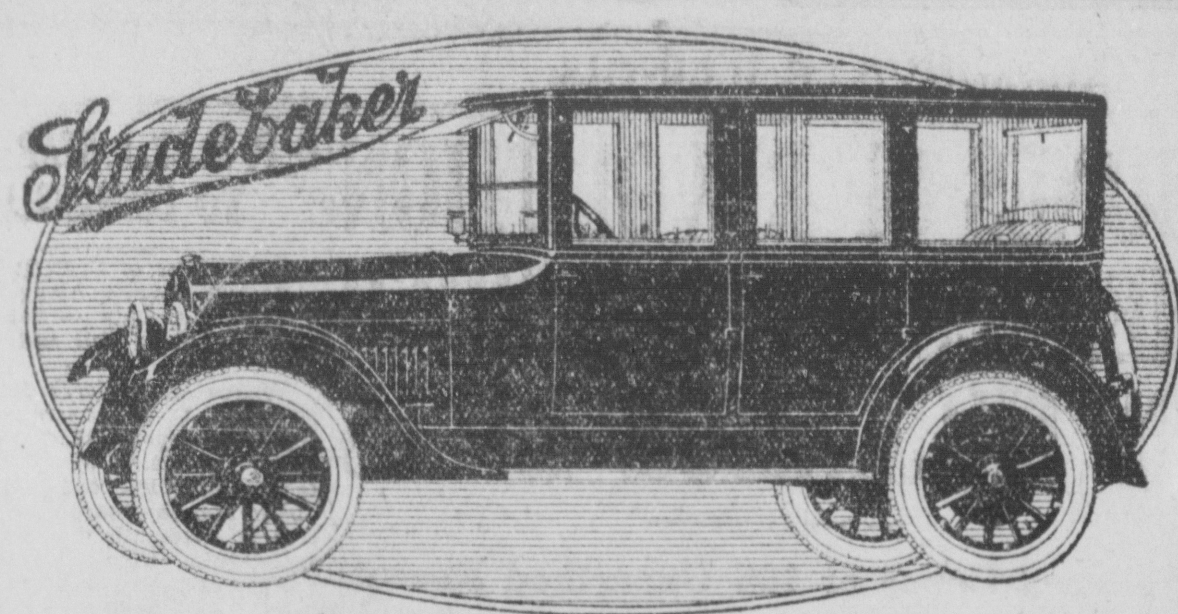

An interesting event in the musical world will be the arrival in this country of the great violinist, Cesar Thomson, who will conduct a master class in the Ithaca Conservatory. This famous Belgian, as a younger man was probably the most renowned technician of the day, one of his feats being the celebrated Moto perpetuo of Paganini, which he played at the required speed, but in fingered octaves. Later on, he devoted himself mostly to teaching. Miss Horsburgh had her first lesson with him at the age of 13 and continued with and under him for four years in Brussels, Belgium.

The annual Glee club concert will take place on Monday evening, March 19th, in Music hall. A most artistic program has been prepared, every number having been chosen for its real musical value. The public is cordially invited to be present.

23 SERIES STUDEBAKER LIGHT-SIX SEDAN \$1550

Hidden qualities largely determine the value and life of a closed car.

Beauty of line and finish and refinements are surface indications and important ones. But your satisfaction with a closed car depends to a great degree upon factors that are unseen—the in-built qualities that come from correct design, use of highest grade materials and careful workmanship.

The 23 Series Studebaker Light-Six Sedan is a quality car. It is built to endure—to give lasting satisfaction.

The Sedan body is substantially made. It will last for years and retain its beauty and comfort. Evidence of its hidden goodness lies in the fact that down under

the paint and varnish, the pillars, roof rails and supporting members are made from specially selected ash. Good ash is expensive but Studebaker uses it because it best combines the proper strength and weight.

Four wide-opening doors make it easy for all passengers to get in or out without inconvenience to each other. A high-grade heater affords summer warmth on cold, damp days. The wide windows give broad vision in every direction.

When you buy a Light-Six Sedan you are really accepting the judgment of 100,000 owners who have found the Light-Six chassis so satisfactory.

Studebaker quality is traditional.

State Street Presbyterian Church, Rev. W. H. Marbach, pastor; T. M. Tomlinson, S. S. Superintendent; Mrs. Barr Brown, choir leader; Mr. Willard Wesner, organist. Few people care to live in a churchless city, but many people want the other fellow to attend and support this necessary institution. Join in the services of prayer, praise and preaching, whether in this church or some other. You will find a hearty welcome here. Sunday school at 9:30 a. m. under the leadership of the College Class. Morning worship at 10:45 o'clock; theme, "The More Excellent Way." V. P. S. C. E. at 6:30 p. m. Evening Service at 7:30 o'clock. "What's in Religion Anyhow?" Come and bring your friend.

Centenary church—C. D. Robertson, pastor. Sunday school at 9:30 a. m. A. C. Metcalf, superintendent. The whole family is invited to the

Sunday school. Each member will find a place, a class and a teacher who knows how to teach. The morning evangelistic service will be at 10:45. The music, as usual, will be in charge of Mr. Lind. This will be Mr. Lind's last day with us. Let us give him a farewell that will be worth while. He will sing his wonderful solos, and direct the great chorus for the last time, and no one should miss this final opportunity to hear him. At this service, all those who have come forward during the meeting, as well as any who have formerly begun the Christian life, all who have church letters to present, and all others who are to be received into the membership of the church are asked to present themselves for recognition. Plans will be made for the baptism of all candidates, and the formal reception of members on Easter morning. But all are asked to be present Sunday. The Epworth League will meet at 6:30 p. m. The evening service will begin at 7:30. This will be the last of these services in Centenary church, but it does not close the meeting. The meetings next week will be transferred and merged with the union meeting held at Grace Methodist church. The campaign has been very successful and will continue in co-operation with the nine other churches in the city.

Northminster Presbyterian Church, Walter E. Spoons, minister—Sunday school at 9:30. Preaching by the pastor both morning and evening. Morning subject, "Does a Moral Man Need a Redeemer?" Evening subject, "From the Mine to the Rocks." Christian Endeavor at 6:30 p. m. On account of the union revival which will begin Monday night, there will be no luncheon on Wednesday evening, nor the regular prayer meeting. Union services each night at Grace church, which all the members of Northminster church and congregation are urged to attend.

Mount Emory Baptist Church, corner of South Church and Marion streets—W. Henry Snowden, minister. At 11 a. m. Rev. Herman Gore, the Boy Evangelist, will preach. Subject: "Wilt Thou Be Saved?" 2 p. m. the funeral of Clay Clark. The pastor will preach. Subject: "The Day of Pentecost." 6 p. m., the Baptist Young Peoples' Union. Mrs. Amelia Sharp, president. 8 p. m., preaching by the evangelist. Subject: "The Seven Seals." The revival meeting will continue during the week. Rev. Gore says, "Some sinners are in more danger of hell than others. You can't dance in heaven, but you will dance when you get to hell. Without the spirit of Christ in the heart, you are in darkness, you are darkness itself, you are in death's shadow, and when one is in the shadow, death is near. I care not how high a man stands in the church, if he is not a real Christian, he is a very poor stick in God's army."

Westminster Presbyterian, corner Westminster street and West College avenue—Bible school at 9:30. Men's class led by Miss Margaret Moore. Beginners' class at 10:30. Subject of the sermon at the morning service "Peter's Responsibility." Every member canvass in the afternoon. At 6:30 p. m. The Christian Endeavor Societies with topic "The Stewardship of Self, Substance, and Service." Matt. 25:14-30 and 1 Peter 4:10. At evening worship, 7:30, there will be thrown upon the screen the moving picture of scenes from Christ's life called "The Dawn of Christianity." Dr. Smith will preach "Earth's Heroes and God's Hero." Every night this week, excepting Saturday, Westminster will join in the Union Gospel services at Grace Methodist church. The Boy Scouts have had two hikes and are planning to have one every Saturday morning under the leadership of one of the patrol leaders, Walter Bradish, Alfred Cranwill, or Harry Furry. The March Birthday party will be held with Mrs. David P. Roy, 136 Prospect street, next Thursday at 3 o'clock, in honor of Mrs. James Rayhill, the president of the Aid society. The Westminster Guild meeting will be postponed to Thursday, March 22.

The Salvation Army, 108 East College street—Capt. and Mrs. H. B. Alsop officers in charge. Meetings for Sunday, March 11th: 2 p. m., company meeting; 3 p. m., Holiness meeting; 6:30 p. m., Y. P. L. leaders will be Marjorie Thission and Dora Flogge. 8:00 p. m. Subject: "Excuses." Meetings during week: Tuesday, Thursday and Saturday nights at 8 p. m. Children's meeting Saturday, March 17th. Subject: "A Race For a Little Boy's Life."

January Was Another 100,000 Month for Ford Car Sales

The total cars sold during January was 100,118 according to advices just received from the Ford Motor Company at Detroit, making the tenth consecutive month in which sales have run over the 100,000 mark.

And while this means that in the last ten months more than one million Ford cars have been sold, the really remarkable feature is that four of these months were fall and winter months during which the average expectation of sales is only about sixty per cent of the spring and summer business.

But since April last, the first month when sales topped the 100,000 line, there has been no slackening and every month since has brought in sales totalling more than 100,000, something unprecedented in the automobile world.

Several things have contributed to this unusual sales record, principal of which is the fact that since last October Ford prices have been at the lowest level ever reached in the history of the company. Organized

sales drives have been most effectively carried on, resulting in an awakening of the motoring public to the fact that the Ford is as dependable and practical in winter as it is in summer.

Another noticeable factor is that a man of moderate means, ambitious to own an automobile and who a few months ago looked to much higher priced cars to satisfy his desire, is rapidly convincing himself that he can better afford a Ford car which calls for less investment, less upkeep expense and has the greatest service facilities. New improvements and refinements in all Ford cars, both open and enclosed models, have contributed much in this respect.

Production at the Ford plant for 1923 will be established at 6000 cars and trucks a day, and this output will be reached about April 1st. With the first month in the year starting off with sales in excess of 100,000, indications are that absorption is going to run close to this high production schedule.

A Real 50-Horsepower Motor and the Stuff to Go With It—\$995!

Never was a car like Jewett for performance! It eats hills. Goes 2 miles or 60 in high—all the range you want. The husky Jewett Six motor has 249 cubic inches piston displacement, that's why. And you know that piston displacement is what puts performance in a car. High-pressure oiling system forcing 2 gallons of oil a minute to all main and connecting-rod bearings, means smooth running and long life.

Behind this tremendous power is "the stuff that goes with it." Every part is rugged, rigid and heavy enough to do anything you want, with never a comeback or whimper. Chassis is the finest of its size. Judge its strength by Jewett's weight, 2805 pounds. Two hundred pounds more than any car its size! The frame staunch and

sturdy is six inches deep. Four big cross-braces make it stout as a bridge. No fabric universal joints in a Jewett. They're all steel, with oil sealed in for a year's use.

And the axles are all Paige-Timken. Ball-bearing steering spindles in the front axle give finger-touch steering ease. The new Paige-type clutch, too, makes a hit with women. Jump your foot off. You can't jerk the car nor stall the motor. And for easy shifting—well, you can change from high to second at 30 miles per hour. That's real handling ease to match Jewett's fifty horsepower. And for comfort—this husky car rides and drives like a big Six!

Let us show you this stoutest, best-built Six you can buy for \$995! See Jewett before deciding.

WOMAN'S COLLEGE NOTES

The basket ball tournament among the various teams was full of thrills of the most exciting kind. Each game was characterized by close scoring and by the determination of each team to win if it was humanly possible. The teams were captained by Helen McPherson, Eleanor Jane Dinsmore, Maurine Gilpin and Avis Murphy. One of the amusing features of the tournament was the game put on by several members of the faculty. This was in the nature of a burlesque and was the cause of much merriment among the students to see their various teachers lay aside their dignity for a while and enter into the spirit of the occasion.

The Dramatic Club had its recognition meeting on Monday evening in Expression hall. At this recognition meeting all the new members participated. They were divided into three groups and each group put on an original one-act comedy.

A large audience enjoyed a special treat on Thursday evening, March 8th, when Miss Powell read in her usual inimitable and charming manner "The Doll House" by Ibsen.

The Wesley Mathers contest in the delivery of declamation will be held Monday evening, March 12th. The preliminary contest to determine who will take part in the finals will be held the preceding Saturday night.

Miss Gertrude Tompkins of Springfield is a guest at the college over the week-end. Miss Tompkins has already registered for the 1927 class and expects to enter in September of this year.

The class of 1924 were formally recognized at appropriate exercises in the chapel on Tuesday morning, March 6th. The usual impressive ceremonies were carried out in the chapel exercises.

Mrs. Gladys Maine Schafer of Duluth, Minnesota, has been a guest at college during the past week. Mrs. Schafer was formerly of Manchester and a graduate in the class of 1908, and was very active in the affairs of the school. She has remained in Jacksonville several days in order to be near her father, Mr. E. L. Main, who is ill at Passavant Hospital.

Miss Knopf, director in the School of Fine Arts, has just received a collection of Lithographs and Woodcuts by Birger Soudgen, who is one of the world's foremost Lithographers. These prints will be placed on exhibition in the Social Room at the college beginning Tuesday of next week. The public is invited to take advantage of the opportunity to see these very fine expressions of art today. There is no admission charge. There will be a later notice regarding the work of Mr. Soudgen.

GIVE CONCERT MAR. 19

The Illinois Woman's College Glee club announces Monday, March 19th as the date of the annual concert. Those who heard the club at the Christmas Vespers will be eager to hear more of their work and those who did not will be equally eager. The program is to be one of varied interest but uniformly high standard. The members are working with especial zest and enthusiasm because the proceeds are to be donated to the Endowment Fund. The fact that Madame Colard is the director, is proof that the concert will be artistic and finished in every detail. A number of special interest will be "At the Cloister Gate" by Edward Greig, which Mme. Colard sang under Grieg's personal direction. The other numbers of the program are equally interesting and a more detailed announcement of them will be made later.

The Emporium Store Is Rapidly Growing

POPULAR JACKSONVILLE ESTABLISHMENT AT 214-216-218 EAST STATE STREET IS ONE OF THE COMMUNITY'S MOST NECESSARY AND MOST POPULAR ESTABLISHMENTS WHOSE LARGE BUYING POWER AND PROGRESSIVE POLICIES HAVE ENABLED THEM TO OFFER SUCH WONDERFUL BARGAINS THAT THEIR TRADE HAS GROWN TO LARGE PROPORTIONS—A TRIBUTE TO THE BUSINESS ABILITY OF THE MANAGEMENT—SECURES WONDERFUL BARGAINS AND THE HIGHEST QUALITY FOR THE PEOPLE OF THE COUNTY AND VICINITY—HAS NEW YORK OFFICE AND DREMEYDUS BUYING POWER.

Whenever any business house is able to inaugurate a merchandising establishment where the public is able to obtain the very necessary articles at lower prices than they are usually sold the public always profits. This is just such an establishment and here the people of the community are able to save much on their purchases, and thus many people who would have had to forego many of the necessities or luxuries or dress on account of the high prices of the times are now enabled on account of the low prices of this store to secure them and enjoy life the much more as they are fixed up as well as their neighbors.

The fact that they buy their stock all for cash, in large quantities, and are discriminating buyers, enables them to offer these wonderful values to the people. This gives them a large trade and they do not try to make all the profits on one sale, but count on small profits and a large volume of business.

To think of selecting purchases without visiting this establishment is simply out of the question for the people in a large territory adjacent. It is a modern and up-to-date establishment, keeping pace

with the rapidly changing fashions.

Their New York office buys for 755 stores and two mail order houses. This gives you some idea of the tremendous prestige of their purchasing power. The price concessions it obtains are evidenced in the prices quoted on merchandise in this store for their customers. They operate five stores in Springfield and are classed among the foremost mercantile firms of the nation.

This establishment is one of the leading stores of this section and is considered by wholesale firms as one of the largest buyers in this part of the state, and consequently is given the unusual advantages offered to merchants of this class. Their stock is purchased in large lots and as a result they are able to give the public an extraordinary service in high class goods at very reasonable prices.

In making this review of the onward progress of the community it is eminently fitting and proper that we compliment them and give their concern the leading position that it has merited as one of the most substantial contributors to the continued development of this section of the state.

PSYCHOLOGIST CURES BY AUTO SUGGESTION

Washington Physician Conducts Clinic With Startling Results.

The Washington Times Herald recently printed a very interesting article detailing some of the remarkable cures effected by Rev. Thomas Verner Moore, thru his clinic and giving some of his views in the value of autosuggestion. Dr. Moore is an instructor in one of the faculties at the Catholic University at Washington, and Joseph D. Becker of this city attends one of his classes.

The article is in part as follows: Cures which appear to many persons little short of miraculous have been achieved by Rev. Thomas Verner Moore, priest, physician and psychologist, at his clinic and have startled Washington.

Gaining control of the subconscious mind is the keynote of his success in curing hundreds of neurological cases, many of which had developed into paralysis, epilepsy, even insanity.

Daily, as he enters his clinic to begin an afternoon of healing, Father Moore is met by dozens of patients, some wealthy, others stricken with poverty, but all anxiously waiting their turn.

One hour is the usual time limit for the first treatment. Many disorders are corrected in this period. Patients previously treated are permitted from quarter to half of an hour. Seldom are more than half a dozen treat-

Everything Spick and Span but the Flush Plates

Every four or five years the average house gets redecorated. New paper, paint, newly finished floors, everything spick and span. Everything but the flush plates. There the old flush plates are, scratched and discolored, like a calico patch on a satin gown.

ments needed. "They all can be cured in a very short time if I can prove to their subconscious mind that there is nothing the matter with them," says Dr. Moore.

His eyes twinkled, and a smile crept over his fatherly face as he explained to the reporter some of the methods employed in reaching the subconscious mind of the patient.

"Don't let them know what you are driving at. Put them through an unpleasant treatment, and in a short time their unconscious ailments will quickly disappear," he said.

The clinic was opened early in 1916. The number of patients continually increased until now there are more than 500 new cases each year.

Dr. Moore is a native of Washington. He was graduated from Catholic University, and afterward had graduate work at two German universities. He then studied medicine at Georgetown University, and later took up medical studies in Munich.

Served in War. During the world war he served with Neurological Hospital, No. 1, located in the Verdun region. His method of healing worked wonders with soldiers returning from the front line trenches, some shell-shocked, others suffering from nervous ailments.

"Shell shock is an unconscious shirking of one's duty," said Father Moore, as he began to describe the manner by which thousands of soldiers were led to believe they had become shell-shocked.

"Only about one out of 100 of the so-called shell-shocked soldiers were really suffering from anything more than an imaginary disorder caused by their unconscious desire to evade the duty before them.

"This is proved by the fact that prisoners never became shell-shocked, no matter how much action they had seen, nor did any of the unfortunate lads who had their arms and legs blown from their bodies by the big guns.

"The men behind these huge guns, receiving the full shock of the gun each time it discharged its deadly load, never suffered from shell shock, altho each time the weapon sent its shell thundering thru the air, the man behind the gun was knocked from his feet.

"These are men who encountered the shock of the war, but they never developed the nervous tremor of shell shock.

"Shocked" at Home. Hundreds of American soldiers who never got farther than the training camp, suffered from the so-called shell shock. Others became afflicted when orders were received to embark for France, while the stronger ones held out until such orders were received as "over the top" or "at 'em, boys."

"At such times the hospitals behind the front lines began to fill with lads who permitted their subconscious minds to overrule their will power and to submit to the belief that they had become shell shocked, the nothing was the matter with them.

"They would enter the hospital trembling from head to foot. They were laid on a table and they still trembled, for hours at a time if you permitted them to. Yet the theory of their trembling is inconsistent.

"A relaxed muscle cannot tremble. That is all the medicine needed to cure shell shock. We would take the trembling member, if it were only a hand or foot shake it and twist it several minutes, then order the patient to relax his muscles. He would be surprised to learn that he had been so quickly cured of his shell shock.

"Once, when orders were received to move and our hospital was filled with about 200 'shell-shock' patients, I donned a white coat and by the simple treatment of a relaxed muscle cannot tremble, had cured the entire lot within the afternoon.

Conflict of Desires. "Shell shock is an unconscious shirking of one's duty originates, like every mental or nervous disorder, in a conflict of desires.

"Each of us has a number of desires. We can't satisfy them all. Many are blocked, and as a result unhappiness in many cases results. This unhappiness takes effect on the person of weaker mentality.

"If the person suffering is of a bad disposition, he will become considerably sadder, and will do nothing. Others worry, excite themselves, or shut themselves up.

"Many will withdraw from all social gatherings, as in the 'scent-in or precox type.' In short these persons become paralyzed, thru subconscious, in an effort to evade the unpleasantness of their state of being.

"Many persons crave sympathy and unconsciously develop the peculiar conditions that prevail upon the sympathetic feelings of those around them. Frequently they develop mysterious convulsive seizures, similar to epilepsy. Others become blind, or their hearing becomes defective. Some lose their voice. All unconsciously develop these troubles as a result of the subconscious appeal, 'see how much I deserve your sympathy.'

"Dull Boy" a Genius. "There isn't anything like a dull boy unless he is feeble-minded. A boy classed as dull is only dissatisfied with his particular training he is being forced to. Naturally, he will be uninterested. But study that boy, find out what he likes and start teaching him how to do that particular kind of work more efficiently and you will soon discover you have found a genius.

"Nervous disorders of children are caused by faulty hygiene in infancy. This fault is hard to correct, if the child had developed a high degree of nervousness, it is easier before these children want something they will at first

CONCORD LADIES AID IN REGULAR SESSION

M. P. Aid Society Met With Mrs. Mary Hamm Thursday Afternoon—Other News From Concord.

Concord, March 10. — The Ladies' Aid Society of the M. P. church held their regular meeting with Mrs. Mary A. Haden and Mrs. Charles Moss on Thursday afternoon, March 9. The president opened the meeting by a prayer by Mrs. Frank Brown. Roll was called with fourteen members and two guests present.

After the business session the hostess served delicious refreshments. The guests were Mrs. Dora Hindley of Jacksonville and Miss Emma Frye of Galesburg. The next meeting will be with Mrs. Wallace, March 22.

Mrs. Bernice Pfolsgraff and son have returned to Beardsdon after visiting her parents, Mr. and Mrs. T. W. Murphy.

Mrs. Charlotte Cox of Jacksonville is visiting her daughter, Mrs. Henry Nortrup.

Misses Gail Nickel and Gertrude Hfrenan attended the state teachers meeting at Springfield Friday.

Mr. and Mrs. Charles Moss of Alexandria were visitors here Thursday.

THE RISING TIDE IN GOVERNMENT

(Presented by Mrs. H. W. English before
College Hill Club)

The paper on "The Rising Tide in Government" read recently before the College Hill club by Mrs. H. W. English, contains the views of the subject of many well known government officials and attorneys. Mrs. English wrote to several authorities on government and received many helpful suggestions. Among those who sent letters and addresses on the subject were Clarence S. Darrow, chief justice of the Illinois Supreme Court, and Hon. Frank O. Lowden, ex-governor of Illinois. The letter from Mr. Darrow is as follows:

Mr. Darrow's View

"There is no question whatever out the original idea of the relation between the States and the nation. The States were the original powers. In these days, the old idea of States' rights seems to have been forgotten. This, in my opinion, is fast resulting in the destruction of individual liberty and the creation of a strong centralized government which must necessarily produce the tyranny at always follow from such a government. The theory of the individual state comes from the fact that local self-government is the only thing that preserves liberty. In a country as large as ours, there are all kinds of people with all sorts of manners, customs, habits, religious and political views and the government as far as possible should be adjusted to the people who live in it. For instance, the traditions of the South are very different from those in the West.

"Likewise, the New England states have very different conceptions of life and liberty than such states as Wisconsin that have been largely settled by Germans, or Minnesota which is settled by Scandinavians. The government should be adjusted to the people that make it up, government covering a large territory, if it succeeds in governing, must be strong and oppressive. It necessarily centralized and cannot fit the ideas, habits and customs of the various people of the nation. The over-running of state lines and the centralization of all functions in the Federal government is a constant menace to freedom. It seems to be the end opinion at this time, but unless a halt is called on that program, it will destroy the ideas of liberty upon which our country is founded. Laws like prohibition, suffrage, child labor, pensions for women and children, marriage and divorce and all police regulations are clearly in the province of the state and cannot be passed by a general government without working tyranny and oppression. Neither will such laws fit any part of the community, for they must be made up of compromises of widely diverse opinion.

Unfortunately in this day, commerce and manufacture seem to attract the sole attention of our people and they have entirely lost

the ideals that are necessary to living and the preservation of liberty.

With kind regards, I am,

Very truly yours,
CLARENCE DARROW

Chief Justice and Ex-Governor Quoted.

Justice Floyd E. Thompson sent Mrs. English his address on "The Sovereign Citizen." He stated that when the principles embodied in the preamble of the Constitution were adopted, for the first time in the history of nations, the people established the government. The individual citizen for the first time in the history of organized government, was sovereign. Being a government of the people, its strength depends on the character, learning and loyalty and loyalty of the individual citizen.

Hon. Frank O. Lowden sent Mrs. English an address on "The Problem of Taxation in a Democracy." In this he sets forth the increasing difficulties found in dealing with the tax question in a growing democracy like ours. A democracy, he says, is but an imperfect instrument, like all human institutions. Eternal vigilance is still the price of liberty. We must inquire constantly for the weak places in the practical working of democracy, if we are to preserve democratic institutions. The real friend of popular government is not he who constantly tells the people that they can do no wrong, but he who warns them against dangers of their own creation. If democracy is failing in any respect let us point it out. In this way only shall we be able to correct it.

The paper read by Mrs. English is in part as follows:

Historical Sense Lost

The trend of today is toward centralization of government, or in other words, federal rule. There is no evil today or disease in the body politic that the general run of voters, especially the women voters, do not think can be cured once and for all by a federal amendment.

"Our tradition of freedom is becoming a windy rhetoric. We are gradually losing our liberty and dignity. Our increasing American tendency is to write our prejudices on the statute books and turn our personal preferences into laws, then yell about laxity. We seem to have lost our historical sense. This country, born of the desire to have freedom of religious and political views, does not glimpse the agony of the ages that brought forth the constitution and institutions of this republic, and we purposely or ignorantly are blinding our eyes to the awful gulf which lies waiting to swallow us if our system is overthrown.

"Nine-tenths of wisdom is being wise in time, so let us take heed before we help to sound the death knell of our American republic. Mr. Roosevelt said bureaucracy cuts the tap root of American principles. He also said any political movement directed against any body of our fellow citizens because of their personal beliefs and religious creed is a grave offense against American principles and institutions.

"The Tribune commented recently upon the hypocrisy and lack of intelligence of the electorate who run off on a tangent of foolish sentimentalism and prejudice, who say they will not accept good government if they have to take it from a Jew or persons of a different faith. There are many who feel if an incompetent man says he is dry, he will make the best official. Incompetent men never make good officials, but a man who is sober and competent, even tho he does not feel that the 18th amendment is constitutional, could make an efficient officer, and in no way change nor attempt to change the laws.

Too Many Bureaus

"There are more than 300 national bureaus in Washington now. Who pays for these to be administered? You and I. Taxes to support these pets of certain men and women are paid by us and we complain of high taxes and go right on voting and lobbying for the creation of more bureaus. As Babson, the economist, said "The government can pick most all the features of the goose before she will squawk.

"This subject is now calling forth lectures, sermons and editorials from men eminent in all lines of occupations and political parties. President Taft said, "Making a federal amendment will not settle prohibition or any other question. It will keep it in politics as an issue. "Women as usual are being blamed for this rising tide of government, which is washing away our freedom and republic. Women hold the balance of power when it comes to voting, so experts say. This shows that it will pay us to make the right impression upon the eyes of election.

"Unless the tendency toward religious and paternalistic legislation is checked it will not be long before there will be complete union of church and state, and there will be a mortgage upon brain and energy of this people which a thousand years cannot lift.

Must Defend Ideals

"It is high time that every

American awakes to the need of defending the ideals of true Americanism, conceived by the founders of this republic, and cure this bureaumania. Even now we are standing on the Marne of this question. Let us remember Mr. Lowell said "The republic will live just as long as the sons shall be true to the ideals of the fathers and principles upon which they founded it." These principles mean not merely one's own liberty but the liberty of others. The state must not be crushed by the community. Crush the initiative and power of the state and there begins the decline of the common energy which lies back of the federal government itself."

QUESTION OF QUAIL SHOOTING IS NOW UP

Farmers of Illinois Divided Into Two Camps—One Offers \$100 Reward For Proof that Quail Destroy Chinch Bugs.

SPRINGFIELD—The question of prohibiting the shooting of quail, now the subject of legislative proposals, has split the ranks of Illinois farmers into two camps and has led one farmer to offer a reward of \$100 for proof that quail eat chinch bugs.

Farmers are demanding that the legislature declare a closed season on quail, arguing that they destroy the deadly chinch bug and thereby aid crop production. Other farmers deny that the quail is a chinch bug eater, and in this

they are strongly backed by hunters represented by the Izaak Walton league.

The man who has advertised the \$100 offer is A. D. Wilkerson of Cook county, owner of a 1,500 acre Green county farm near El. dred. Mr. Wilkerson makes the offer while declaring "the quail is one of the best friends we farmers have."

"For many years," he says, "I have studied how to increase the number of quail on my farm and I feel that my efforts have been rewarded because I have on my farm more, I believe, than on any other farm of like size in this state.

"The principal factors in quail raising are: cover for the birds, feed, and breaking up of coverts to stop inbreeding, which is very fatal to Bob White.

"The natural food for quail is bugs, grain and weed seed. But

as to bugs, the general impression among farmers seems to be that the quail eats chinch bugs. I have examined the crops of hundreds of quail and I have never found a single bug and I do not believe that they eat them. I will give a hundred dollars for positive proof that quail, in its wild state, ever ate a chinch bug.

"I allow a reasonable amount of shooting each fall and this clears out some of the weak birds, scatters the coverts and mixes them up, and this makes strong birds next year. I consider it would be a serious mistake to have a five-year closed season as I am sure the quail would decrease in number."

Cause for much of the widespread belief that quail eat chinch bugs is laid by some of the leaders in the field against a permanently closed season, to an alleged erroneous bulletin of a univer-

sity. It is said a city boy student of the university was sent out on a field trip, and ordered to make a report. is city airs, according to the story, vexed his country boy host, and when he asked if there were quails or Bob Whites about, the country boy showed him a woodpecker.

"By careful creeping," it is said, "the city lad got within gunshot and killed the sap-sucker. He got out his kit and dissected it. In its craw he found 300 or 400 insects and asked his country cousin what they were. Just off hand the farmer boy did not know, but by carefully examining them he pronounced them chinch bugs. The facts were they were just plain red ants.

"So the city boy made careful entry in his note book of his discovery and sent same to the archives of the university and he

wrote a lengthy discussion and signed his name."

Since then it has been commonly accepted that quail eat chinch bugs.

FACISTI NOW WITH NATIONALISTS

Rome—The factional strife between the militant and vigorous Fascist party, which now rules Italy, and the Nationalists, the moderate organization which sought to realize its aims by parliamentary methods, has come to an end. The political purposes of both parties long have been similar; they differed only in ways of accomplishment.

An executive committee composed of six Fascisti and three Nationalists, and presided over by Premier Mussolini, has been formed for the purpose of uniting the activities of the two parties.

ELIMINATE HALF OF POLES FROM STREETS

Working Agreement Among Phone and Light Companies Reduces Number of Poles to 1,500. Illinois Telephone Co. Rebuilds Lines, Placing Wires in Cables.

There is now a working agreement among the companies in the city using telephone and light wire poles, by which the number of poles in the local streets is to be cut down to half the present number. The Illinois Telephone Co. is now at work rebuilding its lines and eliminating poles wherever possible. An agreement has been made with the Railway and Light Co., and the Bell Telephone Co., under which the three companies and the city use each other's poles. In this way duplication of pole lines in the streets and in the yards of private residences will be done away with. It is expected to reduce the 3,000 poles which were in the city before the agreement went into effect to 1,500.

The Illinois is spending in this city and Carrollton about \$6,000 in the rebuilding of lines and placing all wires in cables. There will be no open wire when the work is completed. In many cases this rebuilding has made necessary the renumbering of telephones, as many phones had to be grouped so as to have the drop wires to the houses proceed from terminals at convenient distances. These terminals, or fust boxes, are placed certain distances apart along the cables, and from these the phones in their corresponding sections of the street are supplied with connections.

The regrouping and renumbering which is at present being made thruout the city will be per-

manent. A new telephone directory is to be issued sometime during the fore part of April, and the numbers listed there will be permanent. The letters A, B, C, and D, which are now being attached to many of the new numbers are merely for the convenience of the operator, and will be changed back to the W, X, Y and Z of the present system.

Cables Carry Many Wires

The cables being erected thruout the city carry from ten to three hundred of fine copper wire ropes, which have a tension strength according to the size of the cable carried. The seven-strand steel ropes which carry cables up to 100 pairs have a tension strength of 6,950 pounds. Cables of larger size are carried on special steel ropes with a tensile strength of 10,000 pounds. The cables afford protection against sleet storms and will not break unless struck by a falling tree. A cable is to be run to Arnold, and when the work is completed, there will be cables extending along the main routes in each direction from the city. From which the county lines will feed to the rural phones. A similar work is being done in the country districts around Carrollton.

With the cables in use the circumstances which caused the shutting off of over 4,000 telephones in the wind storm a year ago will not exist. Security against damage by wind and sleet is the main argument for the cables, and in this way the company will save thousands of dollars and be able to insure a more efficient permanent service to its patrons.

If the wire contained in the cables being placed in this city could be stretched out to its total length, it would reach over 18,000 miles. There will be 166 miles of drop wire, or wire connecting the cables with the individual residences and business houses. The cable which runs along West College avenue contains 300 pairs of wires. These will be used to feed all the phones along the street, and if there are any left when the west end of the avenue is reached, they will feed the various country lines in that direction.

NORWAY TO HOLD AN INDUSTRIAL FAIR

Christiana—There will be held in this city early in September the fourth of a series of Norwegian industrial fairs, all of which have been helpful to trade and commerce.

The former exhibitions were held in 1920, 1921 and 1922. They were all successful, and aroused keen interest both in Norway and abroad. The number of entries last year was large. Virtually every branch of Norwegian industry and handicraft was represented, and exhibits were sent in from every manufacturing center thruout the country.

The fair gives foreign buyers a chance to acquaint themselves with Norwegian products and manufactures of every description, and of getting into closer personal contact with firms in every line of trade.

Sydney, N. S. W.—The first city on the southern continent to pass the million mark in population is Sydney, which, in an unofficial census conducted in December, showed a total of 1,050,000 persons in the greater metropolis.

ANNOUNCE SUBJECTS OF REVIVAL SERMONS

Ministers Will Preach On Great Fundamentals of Christianity, During Union Services, Meetings to Open Monday Evening At Grace Church.

The twelve subjects for the twelve union revival services, the first which will be held at Grace church Monday evening, were announced yesterday. They have been chosen by a committee of ministers, consisting of Rev. W. E. Spoons, chairman, Rev. M. L. Pontius, and Rev. A. P. Howell.

Services will be held every evening, except Saturday for two weeks at Grace church. The various local ministers will preach, names of the ministers in the order of their appearance will not be announced. Following are the subjects, as they will occur on the revival program:

- 1.—God.
- 2.—The Christ.
- 3.—The Bible.
- 4.—The Church.
- 5.—The Holy Spirit.
- 6.—The Challenge.
- 7.—Conviction.
- 8.—Conversion.
- 9.—Indifference.
- 10.—Predestination.
- 11.—Almost Persuaded.
- 12.—The Great Decision.

The work of advertising the meetings is already under way. Thousands of tags are to be distributed today from the various Sunday schools and churches.

AUTO MECHANICS HAVE ASSOCIATION

Organization Headed by Charles M. Strawn Proposes to Improve Standards for Mechanical Workers.

Mark Twain once made the remark that a great deal had been said about the weather but very little had been done about it. All of which may be more or less applicable to the work done in service stations.

A brand new idea in the line of remedying existing evils is the formation of the National Association of Automotive Mechanics aimed to better the very beginning point in all repair work—the mechanic himself.

The association chartered by the State of Illinois, comes under the style of organization not for pecuniary profit. The organizers are men who realize that good service lay not so much in modern equipment, well arranged shops, inspection and supervision as in the man who actually does the work on the car. He is the man who has been lost sight of, and it is he whom the newly organized association strives to help and benefit.

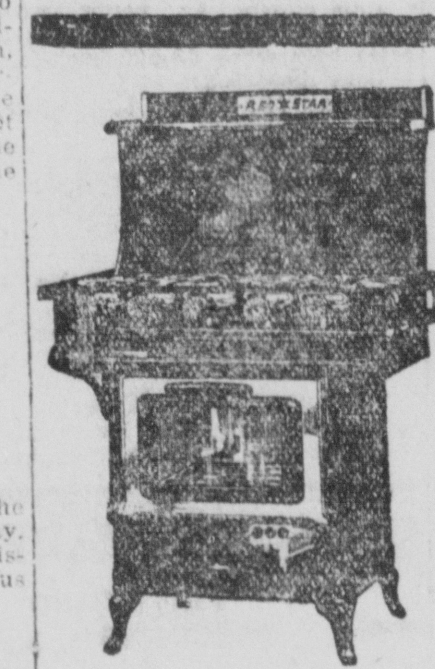

Membership in the N. A. of A. M. hinges upon experience. Three years actual and continuous work in a recognized shop, backed by good references as to character and integrity will enable a mechanic to become a member.

The N. A. of A. M. was chartered by Charles M. Strawn of Jacksonville, Ill., automobile dealer, E. J. Kumble of Alexander, Ill., and T. S. Wright of Springfield, Ill.

Educational bulletins will be furnished regularly to every member in addition blue print specifications of all new inventions and models of automotive parts and the latest wrinkles and equipment and methods will be mailed to members. These will be secured from the manufacturers as a part of their service to the buyers.

Garages that employ blue card mechanics will be given transparent signs indicating the fact. Blue card service will be nationally advertised. There will be an employment department where every member's exact qualifications will be on file. This information will be gained thru a questionnaire at the time of application. The head office of the association is at present time 222 West Court street, Jacksonville, Ill.

THE STORY OF EGYPT

(By Judge M. T. Layman)

The very interesting disclosures in connection with the Egyptian tomb and various comments upon King "Tut" has brought to notice a paper written a number of years ago by Judge M. T. Layman on "Egypt." This paper was read by Justice Layman before the Literary Union back in 1904. It has new interest at this time.

Judge Layman closed his address with the sentence "Egypt herself was a Mummy," and the following is the way that he presented the general subject of "Egypt."

We frequently hear it said of an individual, a country, and a nation, that they are up-to-date, and the questions that are more frequently discussed by societies, clubs, and the press, are those then transpiring and attracting the public attention and are being studied and developed for the benefit of the present and the future, and while this is the case, it may not be time mispent to refer occasionally to the long past and dwell for a brief period on some ancient country, its people, customs, laws, etc., for as the poet expresses it, "Old time in its light is telling tonight, the story of old old years."

In the northeast part of sun scorched and blasted Africa, on

either side of the great River, lies the valley of the Nile, said to be the largest in Africa, and the most fruitful in the world, and known as Egypt. The River Nile flows from south to north, and is formed at Khartoum by the union of two streams, the White Nile and the Blue Nile. It then breaks thru a series of hills, which would at first seem to be nature's barriers, until it reaches the great cataract at Syene, where the river is a thousand yards wide and here it begins to assume the character of Egypt. From this point to the sea, a distance of 750 miles, the great river receives but little or no tributaries, and winding and irregular, flows calmly and majestically, which is the fundamental fact of Egypt. The west branch of the River, known as the White Nile, takes its rise from the Great Lakes lying beyond the equator.

Far to the southeast is Abyssinia, the Blue Nile rises with a smaller volume of water, and unites with the White Nile, as above stated, and from the snow capped mountains and gorges, filled with glaciers, it then sweeps thru a country where dense forests and swamps abound, and where the wild animals and

venomous reptiles rule supreme, and seem to defy the tread of human progress. On the east and west the valley is protected by a range of hills, but on the west side of the River, the valley is much wider; in some places the eastern range reaches the waters edge. The greatest breadth of the arable land on the east side of the River is about 3 miles, and on the west, about 10 miles, but the average breadth on either side is not so great.

About 75 miles from the Mediterranean, the Nile divides into two branches, one flowing north-east and the other in a north-west direction. The district of country between them and the sea is called the Delta.

In no other country of ancient or modern times, were the aspects and processes of nature, clothed in so profound mystery as in Egypt. The solemnity of the procession of the planets and stars increased the fact of the mundane mystery.

The temperature is almost stationary, not varying as much as 15 degrees during the entire year. This would present to a stranger from Illinois, quite a phenomenon in nature. Clouds, mist, rain, and snow are never seen in Upper Egypt; showers sometime fall in the Delta, and farther down the valley, a few clouds will be seen floating southward.

The country is divided into three principal parts called lower, middle, and upper Egypt, and for the purpose of Civil Govern-

ment, ancient Egypt was further divided into provinces, called nomes. The rich soil and green fields of Egypt is caused by the annual over flow of the Nile, which is caused by the melting of the ice gorges in the Abyssinian mountains, where the White and Blue Nile unite. The rise of the water sometime begins in April but the full flow does not usually begin until the middle or latter part of June. Almost five months elapse before the river resumes its natural state, so that nearly three fourths of the year, the swell is noticeable in Egypt. The greater flood is in upper Egypt, and the smaller, in Lower Egypt, varying from 4 to 40 feet. During a period of seven years, beginning A. D. 1666, there was no inundation which caused great famine and distress. From the earliest history and tradition, the prosperity of Egypt has been estimated by its periodical overflow. Egypt is the gift of this wonderful River. A rich alluvium is deposited after the water subsides, but it does not exceed 1-2 inches in depth in a century, but after each over flow, the soil comes forth as if fresh from the hands of the Creator.

The main energies of the people were directed to turning to their best advantage, the wonderful producing power of the soil. Although Egypt has an almost rainless climate and cloudless sky, still on account of the benefit of the great River, she offered to the primi-

tive race of man, the most beautiful and luxurious home of all the world.

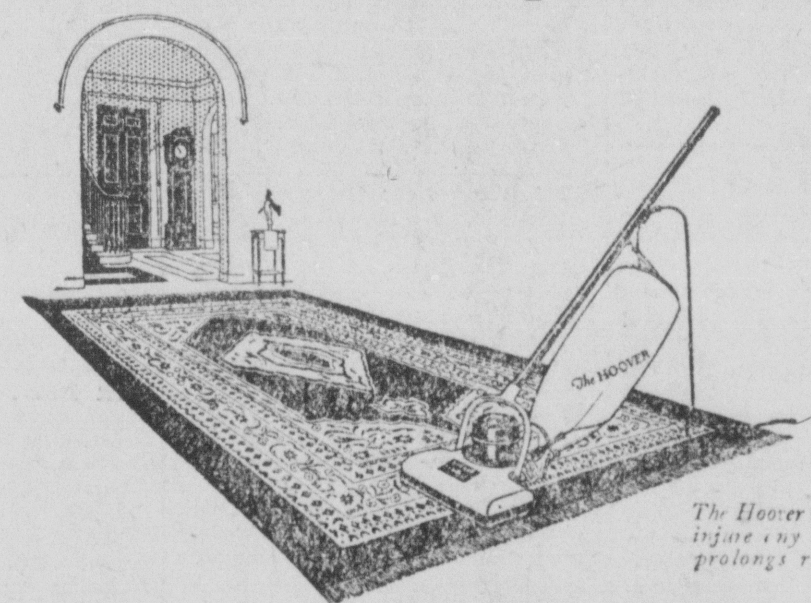

The origin of the ancient Egyptians, like that of many other nations, is involved in obscurity. The weight of authority is, that at a very remote period the original population was displaced in Egypt by bands of emigrants from Asia, and that these emigrants belonged to the white race. Here were no forests or storms of rains, and nature restored the soil with her own richness, and yielded her abundance without labor. In no other country in the ancient world, were so many towns, great and small, crowded into so narrow a district as in the valley of the Nile. According to some historians, Egypt had 20,000 inhabited cities and towns.

Natural phenomena occurred in an order more monotonous and regular than in any other climate. The few birds that frequented the rivers brink, sent forth an ominous cry. The landscape was solemn, the sky still and cloudless, it has neither woods or forests. In this it differs from most other countries. Besides the palm groves we rarely see even a grove of trees, except in Lower Egypt. These natural surroundings caused the ancient Egyptians to become the most unimpractical of all people of antiquity.

They followed the same pursuit from generation to generation; thereby laying the basis for (To be Continued)
